OVERVIEW

About this manual

This manual is the primary reference material for Minneapolis Election Judges. It is built upon the foundation of the Election Judge Guide created by the Office of the Minnesota Secretary of State (MN OSS), adding content that is specific to Minneapolis. Full credit goes to the MN OSS for the creation of the original guide.

Throughout this manual, you will see citations referencing election laws (Minnesota Statutes or M.S. citations) or election rules (Minnesota Rules or M.R. citations). Find the full text of election laws and rules online at: www.sos.state.mn.us.

An electronic version of this manual, the Election Judge Guide produced by the Office of the Minnesota Secretary of State, and other training materials, are available online on the Minneapolis Elections & Voter Services website: vote.minneapolismn.gov.

Thank you for serving as an Election Judge—you are a guardian of our democracy!

Follow local instructions

Minnesota elections are carried out by local jurisdictions like the City of Minneapolis, and not all jurisdictions do things the same way. If you have worked as an election judge in another jurisdiction and are now serving in Minneapolis, keep this in mind.

Code of conduct

While serving, it is essential that you leave your political beliefs at home. On Election Day, your job as an election judge is to faithfully follow election laws to the best of your ability. You must:

- Remain courteous and professional at all times.
- Refrain from partisan comments or discussions.
- Avoid any action that may influence how a person votes.
- Respect the secret ballot and the privacy of voters.
 - Do not give advice, scrutinize ballots, or reveal how people voted.
 - Never disclose personal information about voters found on the polling place Roster, or any other polling place documents (for example, a voter's birth date).¹

¹ M.S. 204B.24; M.S. 204C.15, subd.1

Election judge's oath

As an election judge, you take a legally binding oath that you will uphold election laws to the best of your ability. There are criminal penalties for intentionally deceiving a voter or creating an advantage for your party or candidate.² At the start of Election Day, all judges recite and sign the following oath:

- “I solemnly swear (or affirm) that I will perform the duties of Election Judge according to law and the best of my ability and will diligently endeavor to prevent fraud, deceit and abuse in conducting this election. I will perform my duties in a fair and impartial manner and not attempt to create an advantage for my party or my candidate.”

Basic qualifications

To serve as an election judge in Minnesota, you must be eligible to vote in Minnesota and be able to read, write, and speak English.³

Qualifications for Minneapolis election judges

Minneapolis election judges must:

- have a strong understanding of, and commitment to, nonpartisanship;
- have the ability to communicate clearly with voters;
- enjoy assisting and serving diverse populations;
- be available to work long hours;
- be able to handle stressful situations calmly and professionally;
- demonstrate attention to detail;
- work as a team member and follow directions;
- be comfortable using computers.

Fluency in Somali, Spanish, or Hmong is not required, but desired to aid in serving our diverse population.

Restrictions

- Candidates for office cannot be an election judge in a precinct where they appear on the ballot. This includes those who are actively campaigning as a write-in candidate.
- A person who is a relative of a candidate for office cannot serve in a precinct where that candidate is on the ballot. Relatives include a spouse, parent, child, stepchild, brother, sister, stepbrother or stepsister.

² M.S. 204B.26

³ M.S. 204B.19

- Election Judges who are relatives to each other cannot serve together in the same precinct during the same shift. Relatives include a spouse, parent, child, stepchild, brother, sister, stepbrother or stepsister. Relatives can work separate, non-overlapping shifts in the same precinct.
- A challenger appointed to contest voter eligibility (see page 125) cannot serve as an Election Judge.

Training and certification

There are different training requirements for each type of election judge.

Election Judge Training Requirements				
Minneapolis certification valid through the end of the year in which a course was completed ⁴				
	Basic Election Judge Training	Head Judge Training	Precinct Support Judge Training	Registration Specialist Training
Team Judge	3 Hrs. Required			
Team Judge – Registration Specialist	3 Hrs. Required			1 Hr. Required
Student Judge	3 Hrs. Required			
Assistant Head Judge	3 Hrs. Required	3 Hrs. Required		
Head Judge	3 Hrs. Required	3 Hrs. Required		
Precinct Support Judge	3 Hrs. Required	3 Hrs. Required	2 Hrs. Required	
Healthcare Facility Judge⁵	3 Hrs. Required			

⁴ Minnesota Rules Chapter 8240 requires, *at minimum*, recertification for Basic and Head Judge training once every two years; however, certification for all Minneapolis training courses is only valid through the end of the calendar year in which the course was completed.

⁵ Absentee voting judges receive additional training administered by the EVS staff member in charge of absentee voting.

Polling place assignments

Elections & Voter Services will try to assign you to work in a precinct near where you live, though you may be asked to serve somewhere else in the city. You may serve for all or part of Election Day—unless you are a Head Judge, then you must serve for the full day.⁶ You will receive your work assignment as soon as you are hired.

Number of election judges per precinct:

- Precincts with more than 500 registered voters must be assigned at least four election judges. Precincts with fewer than 500 registered voters must be assigned at least three election judges. Throughout the day, the minimum required number of judges should always be present in the polling place. Every attempt is made to meet these minimum staffing requirements with Team Judges. In addition, each polling place has one Head Judge and one Assistant Head Judge.
- At least two judges must represent different major political parties. No more than one-half of the judges can be from the same major political party. Partisan affiliation does not apply to Student Election Judges, or to judges in school district elections not held in conjunction with a statewide election.
- The number of Student Election Judges cannot be more than one-third of the judges in a given precinct. Student Election Judges do not count toward the minimum number of judges required to serve.⁷

Performance evaluations

After each general election every election judge will have their performance evaluated and have the opportunity to evaluate others. These evaluations are an important way to guarantee success in the polls. They help ensure that every judge has the training, skills, and resources necessary to serve voters. They also enable us to identify issues, improve processes, and provide support to election judges.

How evaluations are used

- To provide feedback, including identifying strengths and weaknesses intended to help election judges be more effective.
- To examine objective measurements regarding how well duties are performed.
- To examine subjective areas such as voter service, teamwork, listening, and following directions.
- To identify election judges who require more training, should be promoted and assigned additional responsibilities, or should not serve again.
- To determine ways which Elections & Voter Services (EVS) may improve materials, procedures, and support provided to election judges.

⁶ M.S. 204B.21; M.S. 204B.22 Subd. 1(b)

⁷ M.S. 204B.22; M.S. 204B.19, subd. 5

It is the responsibility of Head Judges, Assistant Head Judges, Precinct Support Judges, and EVS to provide training and support to ensure every judge is successful.

Who is evaluated

All election judges are evaluated, and have the chance to evaluate at least one other type of Election Judge. Judges that interact with EVS on Election Day will also have the opportunity to provide feedback regarding the performance of EVS staff.

How to complete evaluations

Typically, evaluations are deployed in both electronic and paper formats. Look for instructions closer to Election Day regarding how to access evaluations.

Deadline for completion of evaluations

Completed evaluations must be submitted to EVS no later than November 30 following a regularly scheduled General Election.

Time off from work to serve as an election judge

State law allows you to receive time off from work to serve as an election judge. EVS will provide you with a certificate that includes your work schedule and pay rate. Notify your employer in writing at least 20 days in advance and attach a copy of your schedule and pay rate form.

Your employer can reduce your salary or wages by the amount you are paid for being a judge during the hours you are away from work. For example: If you normally work 8 hours, your regular wage is \$15 per hour and your Election Judge wage will be \$13.30 per hour, your employer can reduce your normal pay of \$120 by the \$106.40 you are being paid by the City of Minneapolis for that time and pay you the difference of \$13.60. Or, you can voluntarily take a vacation day—unless you are a City of Minneapolis employee—to be fully paid by your employer and receive the judge wages you earn as extra income. An employer cannot force you to take vacation.⁸

City of Minneapolis employees serving as election judges

City of Minneapolis employees serving as election judges are required to complete a “Request for Time Off from Work to Serve as an Election Judge” before serving in each election. If you are a City employee serving as an election judge in an upcoming election and have not yet completed this form for that election, or unsure if you have, please call the Election Judge Coordinator at (612) 673-3870. The form can alternatively be downloaded from CityTalk under Forms, completed, and delivered to the Elections & Voter Services office in City Hall Room 201.

⁸ M.S. 204B.195

ELECTION JUDGE TYPES

Minneapolis has seven types of election judges:

1. Team Election Judge (Team Judge, TEJ)
2. Team Election Judge – Registration Specialist (Team Judge – RS, TEJRS)
3. Student Election Judge (Student Judge, SEJ, Trainee Election Judge)
4. Assistant Head Election Judge (Assistant Head Judge, AHEJ)
5. Head Election Judge (Head Judge, HEJ)
6. Precinct Support Judge (PSJ)
7. Healthcare Facility Judge (HCF Judge)

Election judge *types* are different from *polling place duties* (page 49).

Team Election Judge (Team Judge, TEJ)

Team Judges carry out the responsibilities of the six duties within the polling place on Election Day. The six duties are:

- Greeter Judge
- Roster Judge
- Registration Judge
- Demonstration Judge
- Ballot Judge
- Ballot Tabulator Judge

Team Election Judge – Registration Specialist (Team Judge – RS, TEJRS)

These are experienced Team Judges who specialize in Election Day Registration. They are stationed exclusively at the Registration duty station and perform all the same duties as other Team Judges who are assigned to that station, but additionally must:

- mentor other judges serving at the Registration duty station,
- oversee opening and closing responsibilities related to the Registration duty station,
- perform hourly audits of the Election Day Registration applications and the New Registrants Green Roster.

Student Election Judge (Student Judge, SEJ, Trainee Election Judge)

Referred to as a “Trainee Election Judge” in Minnesota Statute, Student Judges are youth aged 16 and 17 years old that perform the same polling place duties as Team Judges with the exception of those that require major political party affiliation.⁹

Qualifications unique to Student Judges include that they:

- be at least 16 years of age to serve,
- must serve within their County of residence or in a County adjacent to it,
- cannot serve on Election Day past 10 p.m.,¹⁰ and
- must receive permission from their school and parents.

Head Election Judge (Head Judge, HEJ)

Head Judges manage a polling place on Election Day. This includes triaging problems, monitoring and mentoring their Election Judge staff, and executing some of the more complex polling place duties like setting up and closing down the ballot tabulator, administering challenges, and completing election certification forms.

Assistant Head Election Judge (Assistant Head Judge, AHEJ)

Assistant Head Judges share the responsibility of managing the polling place on Election Day with Head Judges. The duties of the Head and Assistant Head Judge are identical.

Precinct Support Judge (PSJ)

Precinct Support Judges are a type of election judge unique to Minneapolis. Each is in charge of an entire ward on Election Day. They are responsible for traveling from precinct to precinct within their ward, monitoring and mentoring the Head and Assistant Head Judges at each precinct, and addressing any issues that may arise. These judges have a direct line of communication with Election HQ on Election Day via radio.

Healthcare Facility Judge (Healthcare Judge, HCF Judge)

These judges serve as part of the absentee voting staff. Before Election Day they are sent to administer absentee voting at healthcare facilities within the city.¹¹

PREPARING FOR ELECTION DAY

Study before Election Day and bring your manual to the polls

You are not required to memorize all of the details of election procedure, but you are expected to be knowledgeable. **Take the time to study** this manual before Election Day. The more you study, the better prepared you will be for your duties.

On Election Day, **take your manual with you to the polls to use as a reference** throughout the day. Your personal copy can be especially useful if you have filled it with your own notes.

Appropriate attire for the polling place

Dress comfortably and casually. Like voters, you cannot wear political or campaign-related attire.

Breaks and meals

You may bring a lunch, snacks, and dinner to your polling place. The Head Judge will arrange breaks and meal times. At minimum, judges who work a half-day shift are entitled to one thirty-minute break, and those working a full day are entitled to an hour total break time.

Remember to vote

If you are working in your own precinct, you may vote on a break during regular voting hours. If you are serving elsewhere, you may vote absentee before Election Day. For information about how to vote absentee, visit vote.minneapolismn.gov.

Before leaving home

Election Day will be a long day. Before leaving home, do a quick inventory of your personal needs and obligations for the entire day:

- Do you have your reading glasses, medications, or medical supplies?
- Do you have emergency information that coworkers should be aware of?
- Have you arranged for the care of your loved ones or pets?
- Do you have enough gas, or a ride, to return home?

Head and Assistant Head Election Judges

Head Election Judges have additional duties prior to Election Day such as contacting their team and picking up essential supplies. See the Head and Assistant Head Judge chapter (page 111) for details.

OPENING THE POLLING PLACE

Overview

All election judges working an opening shift on Election Day **must arrive by 6 a.m.**, and the **polls must be open and ready for voters by 7 a.m.** The Head and Assistant Head Judge are in charge of coordinating opening duties, and completing some advanced duties.

The key document for opening the polls is the **Opening the Polls Checklist**, which is found in the Brown HEJ Supply Envelope. This will guide you through every step of the process.

Call Election HQ immediately if:

- You are unable to access your polling place building or room.
- Equipment or supplies are missing or incorrect for your precinct.

Head and Assistant Head Judge opening duties

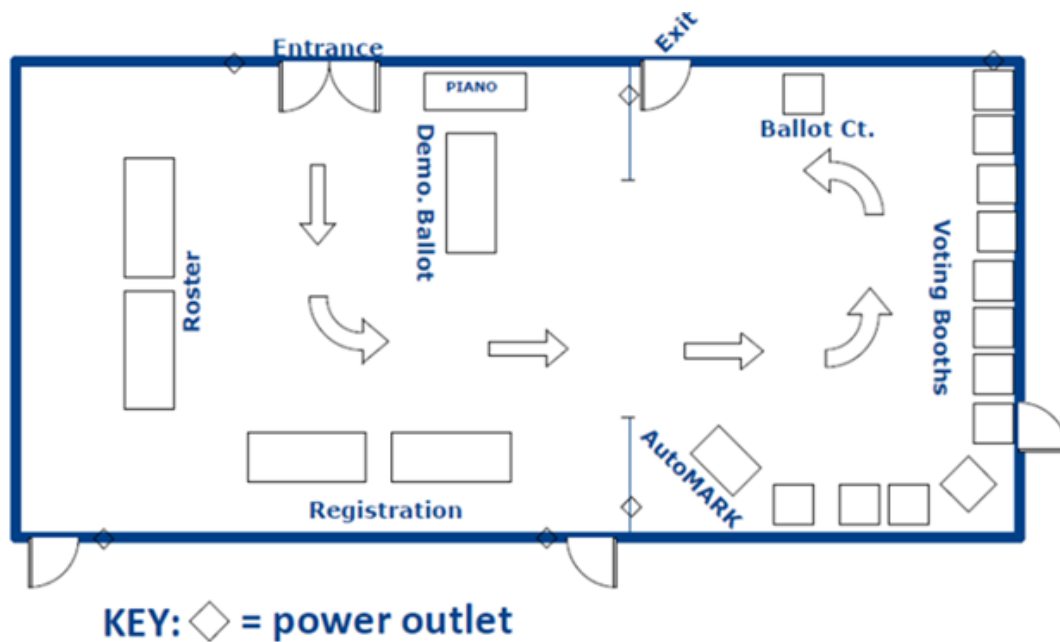

- Administer the “Election Judge’s Oath” to Team Judges, and have each judge sign the corresponding section on the Official Precinct Certification Form (page 167).
- Distribute nametags (must not include party affiliation).
- Distribute the Hot Tips/Notices and ensure that every judge reads the document.
- Assign duties to Team Judges.
- Have each Team Judge complete the Election Judge Time Report (payroll timesheet).
- Initialize the ballot tabulator (page 26) and AutoMARK (page 33).
 - The Head **or** the Assistant Head Judge must assist with these.
 - **Start these as soon as possible**, as they take significant time to complete.
- Complete the “Opening the Polls” section of the Official Precinct Certification Form (part of process for initializing the ballot tabulator).
- Prepare ballots (page 98).
 - Requires two judges, no party balance necessary.
 - May be delegated to experienced Team Judges.
- At 7 a.m. announce: “the polls are open!”

Team Judge opening duties

- Assist the Head and Assistant Head Judge as assigned.
- Set up duty stations (pages 22 - 25).
- Set up U.S. flag (page 48).
- Set up voting booths (page 42).
- Post signs (page 47).

Polling place layout

Each Head and Assistant Head Judge will receive a custom polling place layout that looks something like this:

Use this as a guide to set up the equipment and duty stations in your polling place. The arrows indicate the suggested traffic flow for voters.

These have been crafted to meet the needs of each individual polling place. If you have suggestions for how these can be improved, please write them directly onto the layout.

Chairs

Provide chairs for voters with limited mobility to sit on while waiting. Place at least one additional chair for voter use at each of the duty stations. They can be placed to the side of tables for easy access as needed.

Access

You are required by law¹² to make sure voters of differing physical abilities can get into and move about the polling place. As you set up, put yourself in the position of someone who has never been to the building and has difficulty with mobility. Ask yourself:

- Is there a clear path of travel through all parts of the polling place? Are there cords or rugs that could make mobility difficult?

¹² M.S. 204B.16. Subd. 5.

- What signs will voters need to direct them from the parking lot to the voting room? Are there several entrances that could lead to confusion? Be sure to use the provided arrow signs (or make more if necessary) to direct voters to the correct room.

Traffic Flow

Voters move sequentially from one station to the next; set up your space with this in mind. Both election judges and voters will be grateful for an efficient layout if large crowds come at once.

Privacy

Arrange the voting stations with privacy in mind. Others nearby should not be able to see how someone is marking their ballots. Wheelchair-accessible booths and the AutoMARK station must afford the same level of privacy as the tall voting booths. Ensure that the AutoMARK screen is facing away from polling place traffic.

Where to find supplies

On Election Day morning you will find supplies on one of four containers:

<ul style="list-style-type: none">• Blue Supply Case<ul style="list-style-type: none">○ The vast majority of polling place supplies are here.○ This is where each of the Duty Bags are.	
<ul style="list-style-type: none">• Blue HEJ Supply Bag<ul style="list-style-type: none">○ Picked up by the Head or Assistant Head Judge before Election Day.	
<ul style="list-style-type: none">• Brown HEJ Supply Envelope<ul style="list-style-type: none">○ Found inside the Blue HEJ Supply Bag.○ Picked up by the Head or Assistant Head Judge before Election Day.	
<ul style="list-style-type: none">• Ballot box<ul style="list-style-type: none">○ The lower compartment of the ballot tabulator.○ Blank ballots are secured here when sent to the polls.	

See page 158 for a detailed list of polling place supplies.

Nametags

Each election judge serving the polling place must wear a nametag that includes the judge's first name and their role, such as Team or Head Judge. Nametags must not include party affiliation.

Setting up duty stations

Use your custom polling place layout as a guide to set up each of the duty stations. Each station has a supply bag associated with it that is delivered to each polling place via the Blue Supply Case.

Setting up the ballot tabulator

1. Move the ballot tabulator into the designated area according to your custom polling place layout (example on page 22).
2. Lock the wheels on the ballot tabulator to keep it from moving.
 - a. Do this by rotating the wheels until they are perpendicular to the side of the ballot tabulator and then pushing down on the pedal on top of each wheel.

3. Use the silver key to unlock and open the two doors on the front of the ballot tabulator.
 - a. The top door accesses the auxiliary compartment, and the bottom door accesses the ballot box.

4. Remove blank ballots, extension cords, and any other supplies from the ballot box.
5. Check the ward and precinct numbers on your ballots to make sure that they are correct for your precinct.
6. Confirm that both the auxiliary compartment and ballot box are empty.

7. Ensure that the silver flap is in the upright position.

8. Close and lock the auxiliary compartment and ballot box doors.
9. Use the silver key to unlock the door on the back of the ballot tabulator.
 - a. This door will remain open throughout the day.

10. Gently unravel the power cord (keeping the black brick in place) and plug the cord into an outlet.

11. Use the silver key to unlock the front of clamshell on the top of the ballot tabulator.

12. Release the latches on the front of the clamshell, and allow the clamshell lid to lift on its own.

13. Use the barrel key to unlock the screen.

14. Turn on the ballot tabulator by gently lifting the screen into an upright position

- a. When the ballot tabulator is plugged into power and the screen is raised, it turns on automatically. Alternatively, it can be turned on by pressing the Power button in the memory stick compartment (picture in later steps).
- b. The system will begin printing some startup reports. **Do not tear off the tape.**

15. Use the barrel key to unlock the memory stick compartment.

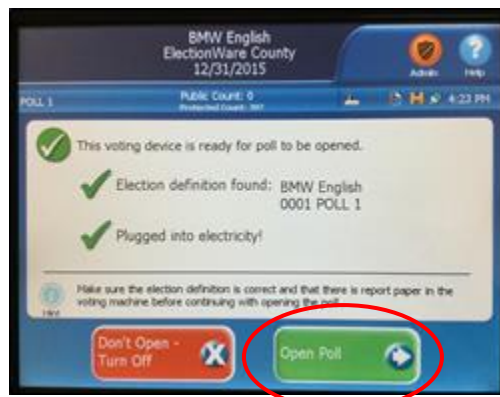

16. Verify that the memory stick seal is intact and that the number matches the one listed in the Opening the Polls Section of the Official Precinct Certification Form.

a. If the seal is broken or does not match, **call Election HQ immediately.**

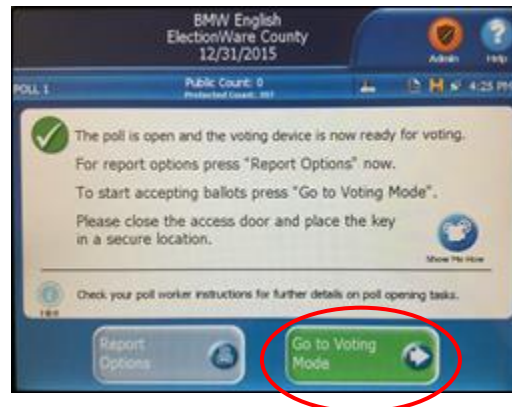

17. Once the ballot tabulator has completely booted up, press “Open Poll” on the touch screen.

a. The Zero Totals Report will print. **Do not tear off the tape.**

18. Retrieve a blank precinct ballot, and use it to make sure that the offices, candidates, and questions on it, and the order that they are listed in, match with those on the Zero Totals Report.
 - a. If these do not match, contact Election HQ immediately.
19. Return the blank ballot to your blank ballot stock. **Do not run this ballot through the ballot tabulator.**
20. If the machine requests that a password be entered, call Election HQ .
21. Press “Go to Voting Mode” on the touch screen.

- a. The screen should now display the message: “Welcome. Please insert your ballot.”

22. Verify that the “Public Count” equals “0.”

- a. If this does not equal “0,” call Election HQ immediately.
- b. The “Protected Count” may not equal zero. This is okay. This number is like an odometer for the machine.

23. Press the blue lever inside the memory stick compartment.

- a. This will release the printer compartment door.

24. Lift the printer compartment door.

25. Carefully roll up the tape and secure it inside the printer compartment.

26. Firmly press down on the printer compartment door to close it.

27. Close the memory stick compartment door and lock it using the barrel key.

28. Double-check to make sure the machine is connected to power.

- a. In the upper-right hand corner of the screen, two connected plugs mean the tabulator is connected to power. A battery symbol means that it is not.

The ballot tabulator is now ready to accept ballots when the polls open at 7:00 a.m.

Setting up the AutoMARK

This process can take up to 30 minutes; it is a good idea to get started early.

1. Check the precinct label on the AutoMARK case to ensure that it is correct for your precinct.
 - a. If this label is not correct for your precinct, contact Election HQ immediately.

2. Remove the AutoMARK table from the grey AutoMARK table box.

3. Place the four metal legs into the four holes in each corner of the underside of the AutoMARK table.

4. Place the AutoMARK table in the room according to your custom polling place layout.
 - a. The pathway to the AutoMARK table must be at least four feet wide, enough to make room for a wheelchair.
5. Orient the AutoMARK table so that when the AutoMARK itself is placed on it, the screen will face away from voter traffic.
 - a. The word “Front” on the table indicates the side that the screen will face when the AutoMARK is atop it.

6. Place a chair near the AutoMARK table for a voter to use if needed.
 - a. It's important to keep this chair clear of the table by default and only use it as needed so that wheelchair access isn't prevented.
7. Extend the handle on the top of the AutoMARK case.

8. Roll the AutoMARK case next to the AutoMARK table and lower the handle on the top of the case.

9. **Two election judges** gently lower the case so that it lies flat on the floor, ensuring that the words “THIS SIDE UP” are facing right-side up.

10. Release the two latches on the long sides, one on each side, of the AutoMARK case, and open it upwards.

11. **Two election judges** carefully lift the AutoMARK out of its case and place it on the AutoMARK table, orienting the front of the AutoMARK with the word “Front” on the AutoMARK table.
- a. One election judge should stand on either side of the AutoMARK while lifting.
 - b. Use the grooves on the bottom of the long sides of the AutoMARK to lift it.
 - c. The “feet” on the bottom of the AutoMARK will fit into the four round grooves on the AutoMARK table.

12. Remove the power cord from the AutoMARK case.

13. Plug the power cord into the back of the AutoMARK and then into an outlet.

- a. Make sure that the cord is positioned so that no one can accidentally trip on it.
- b. A red light on the front of the AutoMARK indicates the machine is plugged in, but turned off.

14. Remove the headphones from the AutoMARK case and keep them nearby for the moment.

15. Verify that the seal number on the AutoMARK matches the number on the Official Precinct Certification Form.

16. Slide the two latches located on the front-top of the AutoMARK outward.

17. Fold back the panel on the front of the AutoMARK.

18. Fold back the second part of the panel, which lays flat over the screen, into a vertical position.

19. Lift the screen up and out from the center of the AutoMARK.

20. Fold the panel that previously concealed the screen back down towards the front of the AutoMARK.

21. Gently pull the ballot slot, located just below the screen on the front of the AutoMARK, up and out away from the screen.

22. Insert the AutoMARK key (delivered to polls via the Head Election Judge Supply Envelope) into the keyhole on the lower left hand corner of the front of the AutoMARK.

23. Turn the key to the "ON" position (the screen may remain black for a minute or longer before displaying anything).
- a. A **green** light indicates the machine is on and receiving ac power; a **yellow** light indicates the machine is on and running on battery backup power; **red** light indicates the machine is off, but receiving ac power.

27. Plug the headphones into the AutoMARK.

28. Verify that the audio reading of the ballot and the physical ballot match by going through each of the offices, candidates, and questions one by one on the AutoMARK, and comparing what you hear to the physical ballot. **Do not mark the ballot.**

- a. Adjust the volume and tempo of the audio as needed using the buttons on the front-bottom-right of the AutoMARK.
- b. If the audio does not match the physical ballot, contact Election HQ immediately.

29. Eject the ballot by pressing the “Exit Return Ballot” option on the bottom of the screen.

30. Place both of the ballots used to test the AutoMARK into the Spoiled Ballot Envelope (found at the Ballot Judge duty station). **Do not deposit these ballots into the ballot tabulator.**

31. Place the headphones at the Ballot Judge duty station, so they can be given to a voter when needed.

32. Remove the AutoMARK key from the AutoMARK, and leave it in the custody of the Head or Assistant Head Judge.

The AutoMARK is ready for use when voters arrive at 7:00 a.m.

Setting up voting booths

Blue voting booths

1. Lay the booth flat on the floor.

2. Release the two latches on the front of the booth.

3. Lift the lid of the booth upwards.

4. Lift each of the grey panels, one to the right, and the other to the left, and lock them into place with the top of the booth.

5. Remove the four legs from the top of the booth.

6. Connect the two pieces of each leg together.

7. Lay the booth on its top, and insert the four legs into the bottom of the booth.

8. **Two election judges** carefully lift the booth and put it into place.

9. Unwind the power cord from the inside of the booth.

10. Plug the power cord either into another booth to continue a chain of booths (up to 10), or into an outlet if it is the last in a chain.
- If plugging the cord into an outlet, run the cord between the top of the booth and one of the grey panels.

Plugging one booth into another.

Plugging the last booth in a chain into an outlet.

- When receiving power, the light on the voting booth will turn on automatically.

Wheelchair-accessible blue voting booths

Compared to the tall blue booths, these have shorter legs and extensions that allow the front legs to be farther apart.

The extensions attach to the bottom of the booth, and the legs attach to the outer portion of the extensions.

A wheelchair-accessible blue booth connected to a tall blue booth:

Setting up signs

Small signs

- Found in the sign bag, in the Blue Supply Case.
- Most of these are posted near the entrance to the polling place room; ensure these are in clear view of every voter that enters.
- Post the sign for voting hours on main entrance where voters will enter the building.
- Sample ballot posters
 - Ensure that the offices, candidates, and questions match those on the official precinct ballots.
 - One of these must be posted at a height such that a voter in a wheelchair would be able to read it.
- Arrows
 - Used to direct voters through a building where the polling place room is far away from the building entrance.
 - If you do not have enough arrow signs, it is okay to make your own.
- Accessible Vote Here
 - If the accessible entrance is different from the main entrance, set this up in an area that will direct voters with accessibility needs to it.
- Secure these to a wall by rolling up blue tape on the **back** of each sign.

Large signs

- **“If you live within the blue line, vote here”**
 - Place this outside the building.
 - This will either be on an a-frame, or a stake.
 - Set it up away from the polling place entrance in an area where most voters are likely to pass by so that they can verify they are at the correct location before entering.
 - Some sites may not have a long approach to the building; use your best judgment in placement.
 - Sites that may have two “main” entrances should receive two signs (one for each entrance/pathway); examples: MLK Park, Van Cleve Park.
- **“Vote Here”**
 - Place this inside or outside the building, wherever it is most helpful for voters.

Setting up the U.S. flag

Place the U.S. flag at the main entrance to your polling place building. This serves to mark where voters should enter during voting hours.¹³ Depending on your polling place, you will receive the equipment to display the flag via one of the following methods:

- Ground mount
- Flag donut
- Wall mount

Open polls regardless of equipment failure

You must open the polls at 7 a.m. even if the ballot tabulator is not working. If it is not working by then:

1. Open the auxiliary compartment of the ballot tabulator to accept voted ballots.
 - a. Only the Head or Assistant Head Judge may do this.

2. Call Election HQ for further instructions.

It's extremely important not to keep voters waiting while you try to get the tabulator working.

Voters may use the AutoMARK to mark their ballot or to verify their ballot has no marking errors before depositing it into the auxiliary compartment.

Ballots deposited into the auxiliary compartment will be run through the tabulator later in the day by party-balanced election judges (page 110).

POLLING PLACE DUTIES

The eight polling place duties

Each duty has a unique set of functions, and most have a color code.

- **Greeter Judge**
 - Confirms polling place and registration status, directs traffic flow, and maintains order (see page 51).
 - Duty station color code = **PURPLE**
- **Roster Judge**
 - Checks in voters who registered before Election Day (see page 59).
 - Duty station color code = **PINK**
- **Registration Judge**
 - Registers voters who did not register in advance of Election Day (see page 77).
 - Duty station color = **GREEN**
- **Demonstration Judge**
 - Explains how to mark a ballot, and is often combined with the Ballot Judge during low-turnout elections (see page 95).
 - Duty station color code = **ORANGE**
- **Ballot Judge**
 - Collects Voter's Receipts and issues ballots to voters (see page 97).
 - Duty station color = **WHITE**
- **Ballot Tabulator Judge**
 - Oversees the ballot tabulator and offers "I Voted" stickers (see page 105).
 - Duty station color code = **YELLOW**
- **Head Judge**
 - Manages the polling place.
- **Assistant Head Judge**
 - Assists the Head Judge with management of the polling place.

Station rotation

Judges (aside from the Head and Assistant Head Judge) will be asked to serve at more than one duty station throughout the day. This provides the vital opportunity for all election judges to become adept at all of the duties.

More than one judge per duty

In almost every election, especially a busy one, most of the duties in each polling place will be carried out by more than one election judge. For instance, there will almost always be multiple Roster and Registration Judges, and there will often be more than one Greeter Judge. This is possible, but less so, with the other duties.

Difference between election judge “types” and polling place “duties”

When an election judge is serving at a particular Duty Station, they are referred to by the duties they are assigned at that station. For instance, election judges working at the Registration Judge Duty Station are referred to as “Registration Judges” when serving at that station. More than one judge may be assigned to a station at one time.

Election judges serving for the first time often ask: “which kind of ‘judge’ will I serve as?” referring to the different Duty Stations. First: it’s important to understand that although “Judge” is part of the name of each of the Duty Stations, these are different *polling place duties*, not different types of *election judges*. Therefore, you may be a Team Judge serving at the Roster Judge Duty Station, or a Student Judge serving at the Greeter Judge Duty Station. Second, you will eventually serve at all of the Duty Stations! Don’t worry, whether it is your first time serving as an election judge, or you have many years of experience, your Head and Assistant Head Judge will work with you to assess your strengths and assign you appropriately.

GREETER JUDGE

Overview

Greeter Judges are the gatekeepers and traffic managers of the polling place. They help voters and polling place visitors get to where they need to go and ensure that lines are moving efficiently.

Greeters can be posted in any of three places depending on the needs of the polling place:

- At the entrance to the polling place room.
- Along the line of voters beginning near the entrance to the polling place room.
- At the entrance to the polling place building.

Station color code = **PURPLE**

Responsibilities

- Manage lines (page 52).
- Greet and direct voters and polling place visitors (page 55).
- Offer to check the registration status of voters (page 56).
- Offer to confirm that voters are in the correct polling place (page 57).
- Monitor polling place activity (page 59).

Tools

- Greeter's List (page 56)
- Precinct Finder (page 57)
 - Precinct-specific
 - City-wide
- Voter Registration Application (page 80)
- Registration Requirements document
- Polling Place List

Managing lines

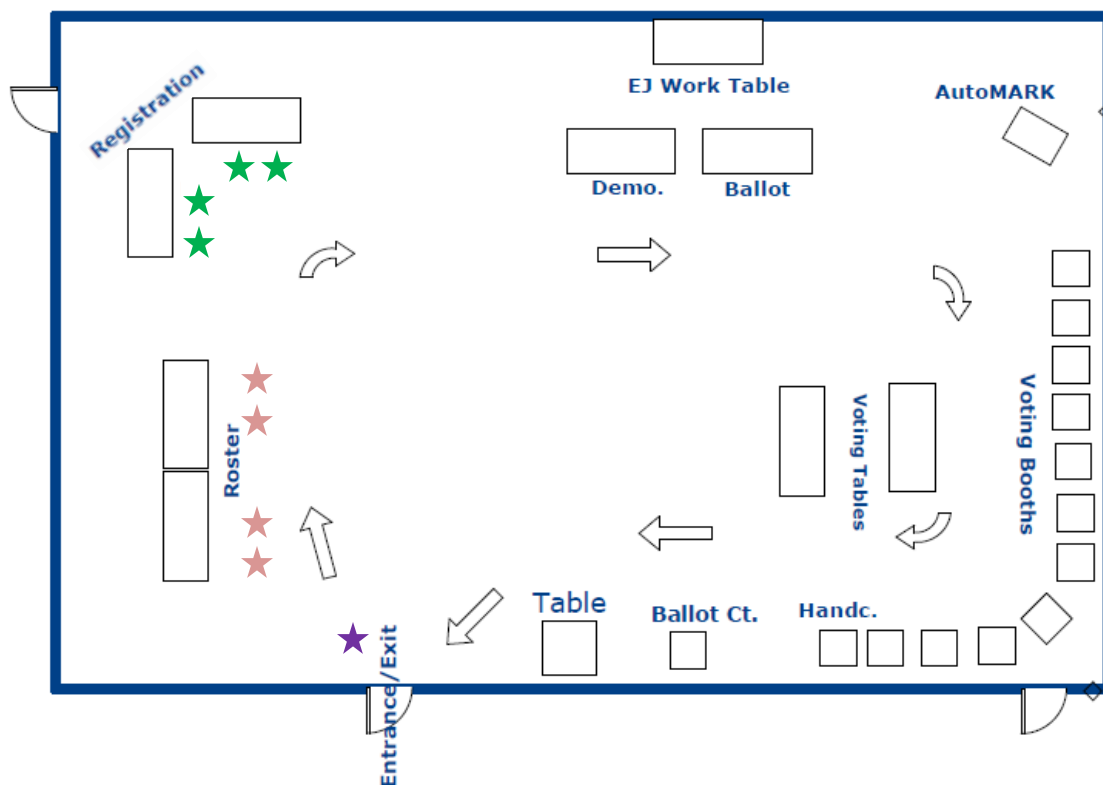

The most important responsibility of Greeter Judges is line management. Ensuring that voters are served in the most efficient way possible is essential to providing great public service on Election Day.

Multi-line management

Greeter Judges, depending on where they are stationed, are responsible for one or more of the following lines:

1. *One* line of voters that starts near the entrance to the polling place room and extends out of that room (★ is front of line).
2. *Multiple* lines at the Roster Judge duty station, each representing a different alphabetic range of last names, A-E, F-M, etc. (★ is front of line).
3. *Multiple* lines at the Registration Judge duty station (★ is front of line).

Polling place room:

The Greeter stationed at the entrance to the polling place room serves as a “gatekeeper,” and is responsible for managing all three sets of lines, (★), (★), and (★), while those stationed at either of the other two locations are responsible for the first line (★) only.

Working the lines

Actively work with voters in line to ensure that they have to wait as little as possible.

Depending on where you are stationed as a Greeter, your focus will be slightly different:

- Entrance to the polling place room (gatekeeper).
 - Allow voters to proceed from the first line (★) to either the Roster (★) or Registration (★) station as space permits.
 - Generally, work with each voter in line in order from first to last; however, if the first voter in line can't proceed because they are registered and there is no room in the line for their last name range at the Roster (★) station, and the second voter in line needs to register and there is room at the Registration (★) station, allow the second voter to proceed first.
 - Offer to check the registration status of voters.
 - Offer to verify that voters are in the correct polling place.
- Along the first line (★) of voters.
 - Offer to check the registration status and verify the polling place of voters.
 - Assist voters with the registration process if they are in the in the correct polling place and need to register.
- At the entrance to the polling place building.
 - Direct voters to the polling place room.
 - Offer to check the registration status and verify the polling place of voters.
 - Assist voters with the registration process if they are in the in the correct polling place and need to register.

Helping voters waiting in line start the Election Day registration process

If a voter is waiting in the first line (★), you have already confirmed that they need to register, and there is no room for them at the Registration station (★), help them get started with the registration process. First, make sure the voter has one of the required proofs of residence (page 85), then provide them with a Voter Registration Application, Clipboard, and pen so they can begin.

This will save the voter and the Registration Judge time, and keep traffic moving efficiently through the polling place.

Congestion in the polling place

If you are stationed at the entrance to the polling place room, keep an eye on congestion forming in areas of the room beyond the Roster (★) and Registration (★) stations and take this into consideration before allowing voters from the first line (★) to proceed.

For instance, a backlog may have occurred at the ballot tabulator or voting booths, so even though people may be able to get past the Roster or Registration station, they will have nowhere to go soon afterwards. This could cause congestion and confusion which must be avoided.

Providing chairs for voters

Be mindful of the physical needs of those waiting in line. Provide chairs for voters who need to sit while voting or waiting to vote, as well as a flat writing surface for completing forms.¹⁴

¹⁴ M.S. 204B.18 Subd 1.(d)

Greeting and directing voters and polling place visitors

Greet everyone as they enter the polling place and direct them if necessary.

Voters

Ensure voters know where they need to go, but remember that some may need assistance and some may not. The key is to offer assistance, but not to slow traffic by stopping voters who do not need it. All voters will eventually have their registration status confirmed at either the Roster or Registration station.

Greet voters, and then if necessary use your Greeter's List (page 56), Precinct Finder (page 57), and other tools if to direct them.

1. Greet the voter.
 - a. Say: "Welcome! Are you registered to vote at your current address?"
 - i. If the voter says yes, direct them to the Roster Judge.
 - ii. If the voter says no, go to step 2.
2. Check the voter's registration status using the Greeter's List.
 - a. If the voter's name and address appear on this list correctly, send them to the Roster Judge.
 - b. If the voter's name or address appear on this list incorrectly, this may be due to a clerical error, or the voter may need to update their registration.
 - i. If there is a clerical error (page 69), direct the voter to the Roster Judge.
 - ii. If the voter has changed their name or address, they need to update their registration, go to step 3.
 - c. If the voter's name and address do not appear on this list at all, go to step 3.
3. Confirm the voter's polling place using the Precinct Finder.
 - a. If the voter is in the correct polling place, inform them about what they will need to register, and then direct them to the Registration Judge.
 - i. If there is no room in the lines at the Registration Judge station, help the voter get started with registration by completing a Voter Registration Application.
 - b. If the voter is not in the correct polling place, direct them to the correct one. The voter may be registered there or not, so let the voter know what they will need to register in the event they need to do so.

Authorized and unauthorized polling place visitors

A list of authorized polling place visitors can be found on page 128.

- Direct authorized polling place visitors other than voters, voter assistants, children of voters, or vouchers to the Head or Assistant Head Judge.
- Direct unauthorized visitors out of the polling place.

Greeter's List

The Greeter's List is used to determine whether a voter is registered in the precinct or not. It contains a list of every registered voter in a precinct. Every voter that appears in a precinct's Greeter's List also appears in the precinct's Roster.

Using the Greeter's List to determine a voter's registration status

1. Ask the voter for their name and address.
2. In column II, locate the voter's name.
 - a. Listed alphabetically by last name from A—Z.
3. In column III, locate the voter's address.
 - a. If the voter's name and address appear in the list correctly, they are registered to vote in the precinct. Direct them to the Roster Judge.
 - b. If the voter's name and address do not appear in the list, they are not registered to vote in the precinct, and may be in the wrong one. Determine their precinct using the Precinct Finder (page 57).

Column I, the Voter Id#, is used in the vouching process for Election Day registration. A pre-registered voter who is vouching for someone else will need this number for their Voucher Form. See page 87 for details.

Precinct Finder

The Precinct Finder is used to determine the precinct to which each voter must go to vote. It contains a set of address ranges and corresponding precincts. There are two versions:

- Precinct-specific
 - Contains only addresses within the precinct.
 - Contains a map of the precinct on the back cover.
- City-wide
 - Contains all addresses in Minneapolis.

Using the Precinct Finder to determine a voter's precinct

Check the precinct-specific version first, since it contains fewer addresses to search through. If their address does not appear there, then that voter is in the wrong precinct. Use the city-wide version then to determine the correct one.

1. Ask the voter for their address.
2. In column I, locate the voter's street address.
 - a. Numerical streets appear first, in order from lowest to highest.
 - b. Alphabetic streets appear next, in order from A—Z.
3. In column II, find the voter's house or building number within the correct range.
 - a. Only look at those ranges that appear below the voter's street address and before the next street address down on the list.
4. Match the house range found in column II, with the correct letter in column III.
 - a. O = Odd house or building numbers; E = Even house or buildings numbers; B = Both odd and even house or building numbers.
5. Match the house range in column II with the letter in column III, with the corresponding precinct directly to the right in column IV.
 - a. The only thing needed from this column is the information at the end of each line: "W—#" and "P—#".
6. If the voter is in the correct precinct, direct them to the Roster or Registration Judge depending on their registration status. If they are in the wrong precinct, find their precinct on your list of polling place addresses, and direct the voter there.

For example, we can see below that a voter who lives at **1898 1st Ave S** must go to vote in **W-6 P-09**.

Monitoring polling place activity

Certain activities are prohibited within or near Minneapolis polling places (page 128). Ensure that these rules are being followed, and speak with your Head or Assistant Head Judge if you need assistance.

ROSTER JUDGE

Overview

Roster Judges are the keepers of the Roster of Pre-registered Voters (Roster). They ensure that pre-registered voters get checked in, issued a Voter's Receipt, and directed to the Demonstration and Ballot Judge(s).

Station color code = **PINK**

Responsibilities

- Checking in pre-registered voters (page 64).
- Resolving Roster notations (page 70).
- Directing voters.
- Keeping the Roster private, accurate, and free of extraneous marks.
- Recording roster corrections.
- Assisting the Head and Assistant Head Judge with curbside voting.

Tools

- Roster of Pre-registered Voters (Roster) (page 62)
- Roster Correction Form (page 69)
- Roster Challenge Log (page 72)
- Voter's Receipts (page 75)
- Notification of Death Form (page 75)
- Certificate of Registered Voter (page 132)

The Roster is a list of all of the voters in the precinct who have registered in advance of Election Day. It is a legal document used to keep a record of those who have voted.

1. Oath/Affirmation

- ## 2. Voter Name and Address

- ### 3. Voter Signature

- b. Roster notations (page 70) may appear here.

a. A unique number used for each voter registration record.

- i. For a pre-registered voter who is vouching for someone else (the number is needed for the voucher form—page 83).

- ## 5. DOB

- b. Used to distinguish between voters with similar names or addresses (e.g. a father and son both named John Smith who live at the same address).

I certify that I am at least 18 years of age and a citizen of the United States; that I reside at the address shown and have resided in Minnesota for 20 days immediately preceding this election; that I am not under guardianship of the person in which the court has determined I am incompetent to vote; that I have not been found by a court to be legally incompetent (been completed) or I have been discharged from my sentence; and that I am not under more than five years imprisonment and a fine of not more than \$10,000.

Roster confidentiality

- The Roster contains confidential information.
- Election judges must not examine Roster data other than what is necessary to assist the voter before them.
- The only time a voter can see the Roster is at the time when they must sign their name.
- Do not give the Roster to a voter and ask them to look through it to locate their name.

Using the Roster to check in pre-registered voters

1. Ask the voter for their name and address.
 - a. Script: “Hello, your name and address please?”
2. Locate the voter’s name and address in the Roster and verify that both are listed correctly (you can use DOB, Date of Birth, to distinguish between voters with similar names and addresses).
 - a. **Do not** give the Roster to the voter and ask them to locate their name.
 - b. If you can’t find the voter’s name, or either their name or address are listed incorrectly, see “Roster troubleshooting” on page 65.

I certify that I am at least 18 years of age and a citizen of the United States; that I reside at the address shown and have resided in Minnesota for 20 days immediately preceding this election; that I am not under guardianship of the person in which the court order revokes my right to vote; have not been found by a court to be legally incompetent to vote, and that I have the right to vote because, if convicted of a felony, my felony sentence has expired (been completed) or I have been discharged from my sentence; and that I am registered and will be voting only in this precinct. I understand that giving false information is a felony punishable by not more than five years imprisonment and a fine of not more than \$10,000, or both.

Roster troubleshooting

You may encounter one of the scenarios described in this section while checking in a pre-registered voter.

If you cannot find the voter's name in the Roster

1. Use the following strategies and attempt to locate their name:
 - Check spelling variations.
 - For a name like Hanson, check both Hanson and Hansen.
 - See if the first and last names were switched.
 - Make sure a name such as Vang Lee is not listed as Lee Vang.
 - Check multiple combinations for “two-word” and hyphenated names.
 - If you cannot find “Anderson-Smith” look also for Anderson Smith or Andersonsmith. Check under Smith in case Anderson was entered as a middle name.
 - See if an apostrophe was omitted.
 - A name like O’Brien might be in a different location within the O’s depending on whether the apostrophe is entered or not.

If you find the voter's name is in the Roster but it is in the incorrect place *due to one of the reasons above*, it is likely that a data-entry error occurred. Complete the Roster Correction Form (page 69) and then allow the voter to sign the Roster.

If the voter has changed their name or address, but their previous information still appears in the Roster, the voter needs to register (page 78).

2. After exhausting all options to locate a voter's information in the Roster, determine which of the following situations applies to the voter and apply the solution:
 - The voter may have submitted a registration application less than 20 days before Election Day.
 - Election law¹⁶ did not allow election officials to add the voter's name to the Roster. The voter must register at the Registration station.
 - If the voter received a Notice of Late Registration (page 166) in the mail and brought it with them, it can serve as their Proof of Residence (page 85).
 - The voter's information may have been automatically removed from the Roster.
 - As part of registration list maintenance, voters who have not voted in the last 4 years are removed.

¹⁶ M.S. 201.061

- The voter must register at the Registration station.
- Their information may have been left off due to clerical error.
 - If the voter insists that they have pre-registered, encourage the voter to register.
 - If the voter refuses or does not have any of the authorized Proofs of Residence, ask the Head Judge or Assistant Head Judge to contact Election HQ for guidance.
 - If authorized by Election HQ , The Head or Assistant Head Judge may need to administer the Emergency Voting Procedure detailed on page 119.
- The voter may have moved.
 - They may be registered in another precinct.
 - Check the Precinct Finder (page 57) to confirm their precinct.
 - If they are in the correct precinct, send them to the Registration Judge.
 - If they are **not** in the correct precinct, send them to the correct one.

If the voter’s information can be found in the Roster, but is incorrect

If this is the case, one of two things is possible: 1) the voter’s name is misspelled due to an administrative typo, or 2) the voter changed their name or moved to a new address.

- If the voter’s name is misspelled, complete the Roster Correction form (page69), and allow the voter to sign the Roster.
- If the voter had a legal name change or moved to a different address (including a new unit in the same building).
 - The voter must register at the Registration station.
 - If the voter changed their name:
 - Give them their ID Number [1] so that they may use “Valid Registration in Same Precinct” as their proof of residence (page 87), instruct the voter as to what the number is for, and send them to the Registration Judge.
 - If the voter moved:
 - Check the Precinct Finder (page 57) to confirm their precinct.
 - If they are in the correct precinct, give them their ID Number [1] so that they may use “Valid Registration in Same Precinct” as their proof of residence (page 87), instruct the voter as to what the number is for, and send them to the Registration Judge.
 - If they are **not** in the correct precinct, send them to the correct one.

The oath/affirmation at the top of the Roster is too small for the voter to read

Assist the voter using:

- the Voter Oath/Affirmation Tent, which has the text in large font, or
- a magnification card or wand.

Voter requires assistance signing the Roster

A voter in this situation has the following options:

- The voter may make a mark, such as an “X,” in the “Voter Signature” space next to their name on the Roster.
- The voter may sign using a stamp facsimile of their signature.
- The voter may request that another person (a person that they have chosen to assist or an election judge) print the voter’s name in their presence.
 - The person printing the voter’s name must sign their name on the same line next to the voter’s printed name.

Voter offers their ID

If a voter offers you their ID, you may use it to help locate their name in the Roster, but nothing else. Inform them that ID is not required for voting in Minnesota.

Roster Correction Form

This form is used to correct *obvious data-entry errors* found in voter records on the Roster; it's **not** for voter's who have *changed* their name or address.

Do not mark corrections on the Roster itself.

When to use this form:

- To correct typos in a voter's name.
 - Voter's name is spelled "Smithe" when it should be "Smith."
- To flag potential duplicate records.
 - More than one record that likely belongs to the same voter.
- To correct typos in a voter's date of birth.
 - Voter's date of birth is "8/2/1982" when it should be "8/2/1983."
 - Date of birth is missing entirely.

When **not** to use this form:

- For voters who have moved to a different address—including to a different unit in the same building—or changed their name.
 - These voters must register (page 78).

Roster notations

There are three common notations that can appear in the “Voter Signature” line to the right of a voter’s name on the Roster:

I certify that I am at least 18 years of age and a citizen of the United States; that I reside at the address shown and have resided in Minnesota for 20 days immediately preceding this election; that I am not under guardianship of the person in which the court order revokes my right to vote; have not been found by a court to be legally incompetent to vote, and that I have the right to vote because, if convicted of a felony, my felony sentence has expired (been completed) or I have been discharged from my sentence; and that I am registered and will be voting only in this precinct. 3. SMITH, BOB AARON 11717 42ND ST	Challenge—Postal Return 3	004 CENTRAL 0030 SPRUCE TWP	0003723215 	

- A.B. [1]
 - The voter has already voted by absentee ballot and had their ballot counted. The voter cannot sign the roster and vote again in a polling place.
- See ID [2]
 - The voter hasn’t voted in Minnesota before and registered to vote by mail, and election officials could not verify their application information. The voter must show the Roster Judge any proof of residence (page 85)—*except for vouching*—before they can sign the Roster. If the voter has a voucher, they can register with the Registration Judge.
- Challenge notations [3]
 - These indicate doubt about a voter’s eligibility to vote, and will need to be resolved using the procedure on page 72 before being allowed to vote (note: **there are special procedures for Challenge—Felony and Challenge—Voted Out of Precinct**).
 - There kinds of challenges that can appear are:
 - **Challenged—Address**
 - The voter’s residency at the address on the Roster is in question.
 - **Challenged—AB Address**
 - The voter submitted an absentee ballot application that lists a residential address different from the one currently listed on their voter record.
 - **Challenged—Citizenship**
 - **Challenged—Felony**
 - The voter may have had a previous felony conviction. A voter with a previous felony conviction can vote after they finish their entire sentence. This includes completion of any probation and parole, commonly known as being “off paper”. At that point, their voting rights are automatically restored.
 - **There is a special procedure used to resolve this type of notation, see page 72.**

- **Challenged—Guardianship**
 - The voter may be under court-ordered guardianship with their voting rights revoked. Voters under guardianship can vote unless their court order explicitly revoked that right.
- **Challenged—Name and Address**
 - The voter’s true name and residency at the address on the Roster are in question.
- **Challenged—Other**
 - The voter’s eligibility is challenged, but the reason is not available.
- **Challenged—Postal Return**
 - The voter was sent a postal verification card that was returned to the County Auditor because it was not deliverable to the person at the address on record.
 - **This is the most common type of challenge notation.**
- **Challenged—Voted Out of Precinct**
 - The voter was recorded as having voted in the wrong precinct at the last election. The voter will need to provide the Roster Judge a proof of residence used for Election Day Registration.
 - **There is a special procedure used to resolve this type of notation, see page 72.**

If another kind of notation appears on the Roster, contact Election HQ for guidance: 612-673-3030.

New Registrants Green Roster data is confidential

New Registrants Green Rosters contain confidential information. Election judges should not examine Green Roster data other than what is necessary to assist the voter before them. The only time a voter can see the Green Roster is at the time when they must mark it to obtain a Voter's Receipt.

Everyone who registers on Election Day must provide one of the proofs of residence listed in this section to the Registration Judge.²² To affirm that proof of residence has been provided, the Election Judge completes the “Election Judge Official Use Only” section at the bottom of the VRA.

The VRA splits the proofs into three broad categories:

- **Category 1:** ID with voter’s current name and address (the “stand-alone” category)
- **Category 2:** Photo ID with current name plus document with current name and address (the “combo” category)

Address confidentiality

While the New Registrants Green Rosters contain confidential information, the names and addresses of people who register become public information. If the voter fears someone might harm them or their family, they might not want their name on the list. At the time of registration, these voters have the option of presenting you with a signed statement that withholding their name from the public information list is required for safety reasons. The Minnesota Secretary of State and the county auditor will then withhold the name from the public information list. If a voter provides such a statement, be sure to attach it to their registration form.

Common residence questions

If needed, principles for determining residence are provided in M.S. 200.031, which can be found on page 163.

- Multiple houses
 - For voting purposes a person can have only one residence. If the voter owns multiple houses, the voter must decide which their principle residence is. They should consider factors such as where they sleep most nights and where their family lives.
- Home damaged due to disaster
 - If a voter intends to return to the home after it is rebuilt or repaired, they do not lose residence at that location. If they do not intend to return to the home, they no longer reside there.
- Student residency
 - Student may choose to vote either at home or in the precinct where they live while attending school, depending on which they consider their residence. The special provisions for Election Day registration for students are in the Proofs of Residence section on page 85.
- Voter does not have a home
 - A voter who is homeless may register and vote. Their residence is where they sleep, be it a shelter, a friend's house or outside. If their residence does not have an address, provide a description of the location on line 4 of the Voter Registration Application (for instance: "bridge at the corner of Washington Ave E and Lincoln Place"). If they do not typically sleep in the same place, they should put the location where they slept the previous night. P.O. Box or General Delivery cannot be used as a residence.

DEMONSTRATION JUDGE

Overview

Demonstration Judges instruct voters on the process of completing their ballot and depositing it into the ballot tabulator. In many cases, the same person carries out the duties of the Demonstration Judge and the Ballot Judge.

Station color code = **ORANGE**

Responsibilities

- Inform voters about marking their ballot and depositing it into the ballot tabulator.
 - Never demonstrate using an official ballot.
 - Do not point to specific candidates or parties while demonstrating how to mark the ballot.
- Give special instructions during primaries, and ranked-choice voting elections.

Tools

- Sample ballot

Instructions to voters

Provide the voter with instructions depending on the type of election.

For the purpose of giving instructions to a voter who is hard of hearing, use this guide or your Duty Card to show the instructions to them.

During every election

- Vote only with the pen provided (the scanner may not detect marks made by other pens).
- Make your selections by filling in the oval next to the candidate or question on the ballot.
- When finished completing your ballot, place it into the secrecy folder (if voter wishes to use it).
- Insert your ballot into the ballot tabulator or ask an election judge for assistance.
- If you make a mistake on your ballot, tell an election judge and they will give you a replacement.²⁶
 - This is particularly important during primary and ranked-choice voting elections.

During general elections

- Blank spaces are provided on the ballot for write-ins for each office. To cast a write-in vote, fill in the write-in oval and print on the line next to it the name of a candidate who is not on the ballot.

During primaries

- No write-in votes are allowed.
- For partisan offices:
 - There will be one column for each major party.
 - You cannot vote for candidates from more than one party, if you do, all votes on the partisan portion of the ballot become void.
- For non-partisan offices, choose any candidate.

During an election with a constitutional amendment question on the ballot

Constitutional amendments have voter instructions printed directly on the ballot. Election judges should not proactively tell voters that not voting on a constitutional amendment has the same effect as voting no. This may influence how people vote, which election judges are not permitted to do. If a voter asks, direct the voter to the printed instructions on the ballot.

BALLOT JUDGE

Overview

The Ballot Judge is the caretaker of ballots for the polling place. They help the Head and Assistant Head Judge prepare ballots in the morning and throughout the day, issue and track ballots throughout the day, and assist the Head and Assistant Head Judge with ballot reconciliation after the polls close.

Duty station color code: **WHITE**

Responsibilities

- Issue and track ballots.
- Assist the Head and Assistant Head Judge with the preparation and reconciliation of ballots.
- Collect and track Voter's Receipts.

Tools

- Ballots
- Voter's Receipts (page 75)
- Ballot Tracking Form (page 103)
- Spoiled Ballot Envelope (page 102)
- Duplicate Ballot Envelope
- Used Voter Receipts Envelope (page 101)
- Secrecy Folder
- Voter's Receipt Spindle

Preparing and tracking ballots²⁷

A supply of ballots must be prepared in the morning and be ready for voters when the polls open. Throughout the day, if the supply of prepared ballots gets low, more must be prepared.

Ballot delivery to the polling place must be certified in the morning and quantities of ballots from each opened pack must be recorded using the Ballot Tracking Form.

Preparing ballots in the morning

Two election judges (no party balance required) must complete this process.

1. Retrieve ballot packs from the ballot box, and the Ballot Tracking Form from the Brown HEJ Supply Envelope.
2. Verify that the ballots are correct for your precinct.
 - a. If they are not, **contact Election HQ immediately.**
3. Complete the Ballot Delivery Certification section of the Ballot Tracking form.
 - a. Count the number of sealed packs, and record this number.
 - i. If the “Number of sealed packs received” doesn’t match the “Number of sealed ballot packs delivered,” **contact Election HQ immediately.**
 - b. Both election judges sign in the Oath section.

4. Provide a ballot to the Head or Assistant Head Judge so that they can confirm that the offices, candidates, and ward-precinct information on it match those on the Zero Totals Report (printed from the ballot tabulator), and that the offices and candidates appear in the same order.
 - a. The Head or Assistant Head Judge does this while setting up the ballot tabulator.
 - b. If any the information does not match, **contact Election HQ immediately**.
5. Open ballot packs (**number determined by Head or Assistant Head Judge**), count the ballots in each pack, and record the counts on the back of the Ballot Tracking Form.
 - a. The number of packs that should be opened before polls open will vary by precinct and by election. In a presidential election year, nearly all precincts will want to open several packs to start the day.
 - b. Packs typically contain 100 ballots, but it is possible from time to time for the count to vary slightly.

Preparing additional ballots throughout the day

When the supply of prepared (initialed) ballots is starting to run low (less than 100) and there are still many voters in line or there is significant time left in the day, it's time to prepare more ballots. To do this, **repeat steps 5-7** from the "Preparing ballots in the morning" section above.

Issuing ballots²⁸

Rules for issuing ballots

- No one may take any official ballots from the polling place (exception: two party-balanced election judges conducting curbside voting).
- Voters may use a reasonable amount of time to vote.
 - If someone is taking an unusually long time, remind them that others are waiting, and ask if they need assistance. If they do need assistance with their ballot, two-party balanced judges, or a person of their choice (with exceptions) may assist them (see page 131).
- The voter may use a voting booth, the AutoMARK, or an open table to complete their ballot.
- The voter may bring any materials with them into the voting booth for assistance (for instance, a sample ballot).
 - Be sure that none of these materials are visible to other voters or left in the voting booth.
- Only one person is allowed in a voting booth at a time unless they request help or have brought an assistant with them.

²⁸ M.S. 204C.09, Subd. 2

Procedure for issuing ballots

1. Collect a Voter's Receipt from the voter.

2. Write the total number of Voter's Receipts collected for the day on the front of the receipt.
 - a. For example, if this is the fifth receipt collected, write "5" on it. For reference, look at the last receipt collected.

3. Place the receipt on the spindle.
 - a. For every 25 receipts you collect, bundle them together with a paperclip or rubber band and place them into the Used Voter Receipts Envelope.

 - b. The voter isn't required to take a secrecy folder if they don't want it.
5. Direct the voter to an unoccupied voting booth, table, or AutoMARK.

Ballot shortages, unofficial ballots

- If the total supply of ballots at the polling place runs low (below 200 ballots), contact **Election HQ immediately** to request additional ballots.
- Under no circumstance should the last ballot at the polling place be given to a voter; keep it to use for making unofficial ballots. Do not wait until all the ballots are gone before making unofficial ballots. Check with Election HQ before doing so and note on the Voter Statistics Worksheet how many were made. Do not keep voters waiting.²⁹

Spoiled and found ballots³⁰

If a voter makes a mistake on their ballot, they may return it to the Ballot Judge and receive a replacement ballot. Ballots returned in this manner are called “spoiled” ballots.

To spoil a ballot:

1. Collect the voter’s ballot.
 - a. Do not examine the ballot unless the voter requests help. If the voter does request help, remember that two party-balanced election judges are required.
2. Place the ballot into the Spoiled Ballot Envelope (do not write anything on the ballot).

BALLOT TABULATOR JUDGE

Overview

The Ballot Tabulator Judge is charged with monitoring the ballot tabulator, managing the line leading to the ballot tabulator, assisting voters in the event of an error, and issuing “I Voted” stickers.

Duty station color code: **YELLOW**

Responsibilities

- Monitor the ballot tabulator.
- Manage the line leading to the ballot tabulator.
- Assist voters with ballot errors (party balance necessary for inspecting ballot itself). (page 106)
- Alert the Head or Assistant Head Judge if:
 - there is a jammed ballot, (page 108)
 - the ballot box becomes full (page 109), or
 - if the ballot tabulator stops working (page 110).
- Issue “I Voted” stickers.

Tools

- “I Voted” stickers

Guidelines for conduct³¹

- Unless a voter specifically requests help, the voter inserts their own ballot into the tabulator.
- No one, except for a voter casting their ballot or an election judge, is allowed within six feet of the ballot box.
 - Tape can be placed on the floor to mark this boundary.
 - More than one voter can be within the 6 foot boundary, but it is essential to ensure that the ballot tabulator doesn't become crowded and to protect the privacy of a voter casting their ballot.
- After a voter has deposited their ballot into the ballot tabulator, offer an "I Voted" sticker.
 - Do not place the sticker on the voter; allow them to collect it unless they specifically request assistance.

Assisting with ballot errors

Procedure³²

1. Tell the voter that the ballot tabulator has a comment about their ballot.
2. Check the display of the ballot tabulator for the error message.
 - a. Do not inspect the voter's ballot.

3. Provide assistance to the voter depending on the type of error.
 - a. For a skewed ballot:
 - i. Read the display of the tabulator to explain the error to the voter.
 - ii. Have the voter attempt to deposit the ballot using different orientations, being careful to deposit the ballot straight into the machine with both hands.
 - b. For overvotes, cross-party votes, or blank ballots:
 - i. Read the display of the tabulator to explain the error to the voter.

³¹ M.S. 204C.06 Subd. 2; M.S. 211B.11; M.R. 8230.4365 Subp. 3

³² M.R. 8230.4365

1. If the voter does not understand your verbal explanation and asks for additional clarification, two party-balanced election judges may discretely review the ballot and advise the voter.
- ii. The voter decides whether they would like a replacement ballot, or to cast their ballot as is.
 1. If the voter wants a replacement ballot, follow the spoiled ballot procedure (page 102).
 2. If the voter wishes to cast their ballot as is, **notify them that portions of their ballot may NOT be counted**. If they still wish to cast their ballot as is, select the option on the display if the tabulator to cast the ballot.
- c. For a jammed ballot: see the “Troubleshooting a jammed ballot” section in this chapter.

Types of ballot errors

- Skewed ballot
 - Ballot tabulators should accept a ballot in any orientation, but the ballot may have been inserted at an awkward angle.
 - The voter should attempt to deposit the ballot using different orientations, being careful to deposit the ballot straight into the machine with both hands.
- Overvote
 - The voter has selected more candidates for an office than are allowed. For example, voters can only choose one candidate for U.S. President, so voting for two Presidential candidates will trigger an overvote.
 - The device may mistakenly identify stray pen marks as an overvote.
 - The voter may spoil their ballot and receive a replacement or cast it as is (**warning: overvoted offices will NOT be counted**).
- Cross-party voting
 - In a partisan state primary, voters can only vote for candidates from one party. Voting for candidates from more than one party will trigger this error.
 - The voter may spoil their ballot and receive a replacement or cast it as is (**warning: cross-party voting will cause the entire partisan portion of the ballot NOT to be counted**).
- Blank ballot
 - The voter did not vote for anything on their ballot.
 - The voter may return to the voting booth to complete their ballot, or cast it as is.³³
- Jammed ballot
 - The ballot jammed within the machine, and may have been counted, or not counted.
 - See “If a ballot jam occurs” in this chapter.

³³ M.R. 8230.4365

Troubleshooting a jammed ballot

If a ballot gets jammed in the ballot tabulator, ask the voter to remain in the polling place.

- Read the error message on the ballot tabulator to see if the ballot got stuck before or after the machine counted it. Note: the “jammed ballot” message will remain on the screen and the ballot tabulator will continue to beep until the jam has been cleared.
 - If the ballot was **not counted**, an error message will indicate a problem ballot or instruct you to reinsert the ballot.
 - Generally, if a jam occurs and the ballot has not been counted, it must be removed from the front of the ballot tabulator. If it is visible, tug gently back [have the voter do this; the voter may place the ballot into a privacy cover]. If it is not visible, remove the black plastic privacy guard on top of the ballot tabulator. If it is still not visible, unlock the ballot tabulator security flap and pull the ballot tabulator forward a few inches. The ballot will likely be visible out the back of the ballot tabulator. Remove it, being sure to not let it fall into the Ballot Box. [Have the voter] re-feed the ballot after any source of the jam has been corrected [the voter may need to try different ballot orientations]. (Source: Hennepin County)
 - If the ballot jams again, read the new error message and have the voter place the ballot in the secrecy cover. Then accompany the voter to the Ballot Judge, ask for a replacement ballot, and place the spoiled ballot in the Spoiled Ballot Envelope.
 - If the ballot was **counted**, an error message will instruct that the ballot be manually placed inside the ballot box.
 - Generally, if a jam occurs and the ballot has been counted, the ballot got hung up on the ballot guides. The ballot guides are silver tines that are located in the upper back portion of the ballot box. The ballot guides can be bent back slightly to allow more clearance for the ballot. In most cases the ballot will need to be cleared by opening the ballot bin and pulling the ballot down. Two **party-balanced judges** must be present for this operation. A flashlight is also helpful. (Source: Hennepin County)

If the ballot box becomes full during voting hours

For every 750 ballots deposited into the ballot tabulator (when “Public Count” = 750, 1,500, etc.), it’s time to empty the ballot box.

This procedure **must be completed by two party-balanced judges**:

1. Open the ballot box.
2. Remove ballots.
3. Place ballots into a Ballot Transfer Case.
4. Seal the Ballot Transfer Case using two Ballot Transfer Case Certification Seals and one Rat-tail Seal.

5. Place the Ballot Transfer Case in a secure location.
6. Record on the Incident Log the: 1) time of day, 2) initials of the two judges who opened the ballot tabulator, and 3) number from any seals used to secure removed ballots into Ballot Transfer Cases.³⁴

³⁴ M.R. 8230.4365, Subp. 5

If the ballot tabulator stops working

1. The Head or Assistant Head Judge calls Election HQ .
2. The Head or Assistant Head Judge opens the auxiliary compartment slot on the front of the ballot tabulator.

3. Explain to voters that once the ballot tabulator is operational, election judges will process ballots through the ballot tabulator.
4. Allow voters to deposit their ballots into the auxiliary compartment.
 - a. If voters desire, they may first use the AutoMARK to verify that there are no errors with their ballot.

5. Once the machine is operational, **two party balanced judges** remove the ballots from the auxiliary compartment and feed them into the ballot tabulator.
 - a. Don't do this if there is a long line of voters waiting to cast their ballot.
 - b. This may be done after the polls close.

HEAD AND ASSISTANT HEAD JUDGE

Overview

The Head and Assistant Head Judge are the managers of the polling place. They monitor and mentor their team of judges, assign duties, and carry out some of the more advanced polling place tasks. They have additional duties before Election Day and are responsible for returning supplies to EVS on election night. While the HEJ and AHEJ share duties, the HEJ is the ultimate authority in the polling place.

Either the Head or Assistant Head judge is required to have a cell phone, used to keep in contact with Election HQ on Election Day. Reimbursement is provided for this use.

Responsibilities

- Before Election Day (page 112)
- On Election Day (page 113)
- After Election Day (page 114)
 - Complete Election Judge Evaluations

Tools

Supply lists for each of the following can be found on page 158.

- HEJ Duty Bag
- Blue HEJ Supply Bag
- Brown HEJ Supply Envelope
- Closing Bag

Duties before Election Day

Contacting your election judge team

- Two weeks before Election Day, you will be mailed a list of election judges who are scheduled to work at your polling location along with their contact information.
- Contact each one of the election judges on your team. Confirm that they are working and the hours they will work. Take this opportunity to assess their level of experience and begin to plan what duties each judge will be best suited for.
 - If there are any staffing concerns, contact the Election Judge Coordinator: 612-673-3870.
- The list of election judges assigned to your polling place is subject to change due to election judge availability and party balance. The final list will be provided on the Monday before Election Day during supply pick-up.

Monday supply pick-up and polling place visit

The Monday before Election Day, the Head **or** Assistant Head Judge is required to pick up supplies from Election HQ . If the HEJ or AHEJ is able to arrange it with the polling place, they can visit their polling place, complete some basic setup activities, and secure materials there. If they can't arrange a polling place visit (for instance if there is another event in the building) HEJs or AHEJs are permitted to store these supplies at home (**cannot be in a vehicle**).

- Supply pick-up (required)
 - Location: Minneapolis City Hall
 - Time: 9 a.m. — 6 p.m.
- Polling place visit (if possible)
 - Contact your polling place in advance to arrange a time to visit.
 - The HEJ or AHEJ may go together, or enlist the help of one of their Team Judges. **Two judges total will be paid for up to two hours each** for this purpose.
 - Review and familiarize yourself with the supplies provided and confirm that precinct-specific materials are correct. **Call the Election Judge Coordinator immediately if any supplies are missing or incorrect.**
 - Review materials in the Blue Supply Case and materials received in training.
 - Review the custom polling place layout and access to the polling place and remind the building contact that the building must be opened by 6 a.m. on Election Day morning.
 - Secure materials received from Election HQ to ensure that sensitive voter information is protected. **These materials must not be left in a vehicle overnight.**
 - Set up tables, chairs and voting booths. **Do not initialize the ballot tabulator or AutoMARK.**

After the polls close

See the “Closing the polling place...” chapter on page 139.

Duties after Election Day

After Election Day, Head and Assistant Head Judges have the opportunity to complete evaluations of their team, and others as well. See below, and page 14.

Evaluating your election judge team

After the General Election, you will have the opportunity to evaluate your election judge team. You'll evaluate them based on how they performed at each duty station, and other criteria. To complete these effectively, keep notes about each of your election judges as you monitor and mentor them on Election Day. The Head and Assistant Head judge should collaborate to complete evaluations of their team.

Consider the following when evaluating:

- Is this judge new?
- Did the judge display adequate knowledge of the election laws and procedures for each duty?
- Was the judge alert and attentive during the entire day?
- Did the judge perform the duties assigned by you in an acceptable manner?
- Did the judge perform proficiently or need additional training at each duty?
- What other observations would assist in the evaluation? You can use the comment section for additional information.
- Would you recommend re-appointing this judge?
- Every Election Judge deserves to know how well they performed. Acknowledge judges on duties or tasks performed well in addition to detailing what they could do better. Judges should know where improvement is needed.

Since formal evaluations are only completed after the General Election, if you have a concern about the performance of an Election Judge at a primary election, call the Election Judge Trainer: 612-673-3858.

Polling place management

Your primary focus on Election Day is **maintaining an orderly, neutral, and voter-friendly environment**. Here are some things to keep in mind as you are managing your polling place:

- If you have long voter lines, assign additional Greeter Judges to assist voter flow.
- It is acceptable to have many voters (within fire code regulations) in the polling area; however, ensure that the space doesn't become so crowded that it becomes hard to manage.
- Ensure that the polling place is a quiet and respectful environment.
- When a polling place gets busy, things can appear chaotic. It is critical that voters understand that things are under control.
- Ensure that voters have privacy while voting.
- Monitor the Roster and Registration stations and adjust staffing as needed.
- Ensure that voters know that they are permitted to use an open table or a clipboard to complete their ballot if they choose. Voters do not have to wait for an open voting booth.

Party balance activities

An activity that requires "party balance" can only be completed by **two judges of different major political parties**. The following are all of the party balance activities:

- Assisting a voter with the marking of their ballot.
 - Remember, voters can have a person of their choice assist them with this instead (see page 131).
- Explaining a ballot-marking error to a voter by examining the ballot itself.
- Curbside voting.
- Opening either the auxiliary compartment or the ballot box of the ballot tabulator during voting hours.
- Duplicating ballots.

Emergency preparedness

If a fire, a weather emergency, or another type of emergency occurs during voting hours, take steps to protect yourself and other people in the polling place. Familiarize yourself with evacuation plans for the polling place. **Do not worry about election supplies until after everyone in the polling place is safe. The safety of election judges and anyone else in the polling place is your first priority, everything else is secondary.**

If polling place must be left unattended

This would be due to a **catastrophic emergency** (tornado, fire, bomb threat, or other situations when election judges may be ordered to leave premises).

1. First and foremost, **STAY CALM, DO NOT PANIC.**
2. Choose a location to meet outside; designate Election Judges to assist voters exiting the poll.
3. Record the public count from the ballot tabulator and the time of day in the Incident Log.
4. Remove the memory stick from the ballot tabulator. Follow these steps in sequence to do so (this will take a couple of minutes):
 - a. Use the barrel key to unlock the memory stick compartment.
 - b. Hold down the Power button
 - c. The Power button will immediately turn light red.
 - d. After about a minute the button will turn deep red.
 - e. Release the Power button and it will turn white.
 - f. Snip the wire securing the memory stick and remove the memory stick (wire cutter is in Closing Bag in a clear pink bag with small tan envelope).
5. Secure blank, non-voted ballots in the AutoMARK case.
6. Keep voted ballots locked in the ballot box.
7. Use any available return envelope (i.e. Duplicate Ballot Envelope, Election Day Registration Envelope) for any uncounted ballots found in the auxiliary compartment.
8. If time permits, take the following items with you:
 - a. Polling place Rosters (Roster of Pre-registered Voters and New Registrants Green Roster)
 - b. Completed Voter Registration Applications
 - c. Memory stick
9. Exit the polling place and account for all members of your election judge team.
10. As soon as you are in a secure location, call Election HQ for further instructions about the voting process.

If the polling place can be reopened:

1. Resume voting by using the auxiliary compartment of the ballot tabulator, if necessary.

2. Call Election HQ to explain that the polling place has reopened.
3. Support staff will be sent to re-install the memory stick and assist in reestablishing normal operations.
4. Record events on the Incident Log.

If the polling place cannot be reopened:

1. Call Election HQ for instructions regarding emergency voting.

If emergency requires police, fire, or medical

1. Call 9-1-1.
2. Identify yourself as an election judge and give your ward and precinct number.
3. State the name and address of the polling place building and the specific location inside the building where the problem is located.
4. Explain the circumstances to the 911 operator and accurately describe the situation.
 - a. The more accurately you can describe the situation, the better for the 911 dispatcher to be able to make a determination about what type of response is required.
5. **After** calling 911, call Election HQ .
6. Explain the situation and staff will be sent to assist you.
7. Record the situation on the Incident Log noting:
 - a. Time of incident
 - b. Type of problem
 - c. Name of individual(s) involved if known
 - d. Brief physical description of individual(s) involved
 - e. Brief description of the incident
 - f. If the incident involves an injury, obtain the following:
 - i. Name, address, and telephone number of the injured person
 - ii. How the injury occurred, describe in detail the location and circumstance
 - iii. Describe in detail the injury (i.e. bruise on the left ankle, cut on right thumb)
8. Names and signatures of Election Judges witnessing the incident
9. Names and telephone numbers of other witnesses.
10. Call Election HQ when the situation is resolved.
11. Record the time and resolution of the situation on the Incident Log.

Non-emergency injury or accident

If situation does not require 911, follow steps 6-8 from the “police, fire, or medical” section.

Change of polling place

Contact Election HQ if your polling place is unusable and you must move to a new polling place. You will be directed to a location as near as possible to the original polling place. Publicly announce the change to the voters present and post a notice in a location visible by voters from their motor vehicles. Post a similar notice of the change in the new polling place.³⁵

Emergency appointment and training of Team Judges³⁶

This type of training is conducted by the Head Judge of the polling place in which a Team Judge is emergency-appointed to serve.

1. Call and notify Election HQ that an emergency appointment has been made (Election HQ may alternatively assign someone to your precinct).
2. Have the appointee complete a HIRE Form.
3. Direct the appointee to complete the Election Judge Time Report.
4. Document the emergency appointment in the Incident Log. Write:
 - a. that the individual has been appointed as a Team Judge,
 - b. their first and last name, and
 - c. the time their shift will begin.
5. Have the appointee recite the Election Judge's Oath, and sign in the Oath section of the Official Precinct Certification Form.
6. Next to the appointee's signature on the Official Precinct Certification Form, write: "The new Election Judge was appointed to fill a vacancy".
7. Review with the replacement judge all procedures and duties that are assigned to them (keep in mind that the appointee doesn't need to be taught everything all at once).
8. Assign the appointee to a duty station.
9. Provide additional instruction as necessary throughout Election Day.
10. Ensure that the appointee's HIRE Form is placed with items to be returned to the warehouse on Election Night.

Emergency voting procedure³⁷

If a voter insists that their name was left off the Roster due to a clerical error, and they are unable or unwilling to register in the polling place, use the following procedure:

1. Call Hennepin County Elections (the County Auditor): 612-348-5151.
2. If the county confirms the voter's registration and authorizes you to do so, have the voter print the required name and address information on the Roster page where the voter would have been listed alphabetically.
1. Two judges note on the Roster that the voter was permitted to vote pursuant to instructions from the County Auditor.
2. Two judges write their initials next to the voter's entry on the roster.
3. Give the voter a Voter's Receipt and direct them to the Demonstration & Ballot Judge.
4. Make a note of this occurrence in the Incident Log.

Voter Receipt & Ballot Tabulator Audit

Use this form once an hour to record:

- the # of Voter's Receipts collected by the Ballot Judge in column A,
- the Public Count from the Ballot Tabulator in column B, and
- the # of voters currently using voting booths (including AutoMARK or a table).

Add the totals in the 2nd column from the right, if the numbers in that column and column A don't match, record this on the Incident Log and **contact Election HQ immediately**.

Print your initials in the final column.

Monitoring and mentoring your election judge team

Your primary duty is to provide voter services in a politically neutral and voter-friendly environment while ensuring the accuracy and the integrity of the election. To do this, you will need an effective team.

Throughout the day, observe your election judge team and ensure that they are completing their duties correctly. Commend those that are completing their work properly, and provide constructive feedback and correction to those that are not.

Tips for maintaining an effective election judge team

- Always take every opportunity available to mentor judges.
- Audit paperwork completed by election judge team and provide immediate positive correction if necessary.
 - This ensures all documents are accurate and enables each election judge to be successful performing tasks correctly and accurately.
- Provide positive feedback to election judge team.
 - Every person wants to know they are performing well.
- Encourage team mentoring and growth by pairing veteran judges with new judges.
- Identify potential future Head or Assistant Head Judges, and, as appropriate, expose these candidates to Head Judge duties.

Mentoring judges using CPR

No, this isn't the life-saving technique used on a person when their heart stops; this is a different kind of CPR. It's a tool for mentoring election judges.

CPR stands for:

- C = Compliment
- P = Positive correction
- R = Review

Use this process when correcting a judge's performance:

1. **Compliment** the judge about something that they have been doing well.
 - a. For example, you might compliment the judge on a portion of the task performed correctly or done well. It is important that the compliment be **descriptive** and **specific**.
2. Explain to the judge that you observed something that needs to be improved, and **use positive communication, modeling, and demonstration** to convey the correct way to do things.

- a. Positive correction means to place emphasis on the correct way to do things instead of dwelling on what was done incorrectly. While it is important for the judge to understand what they did wrong, it is more helpful to reinforce what you want the judge to do.
3. Observe how the judge behaves after the correction is made, and **provide the judge with feedback** about whether or not the correct behavior was achieved.
 - a. This is vital because if you merely ignore the judge after providing positive correction, the judge may get the impression that you care too little about them to stay and make sure the correction was achieved.

Additional mentoring tips

- It is helpful if you have specific examples of work performed inaccurately. For example, with the Voter Registration Application, showing their work and comparing it to the correct way will be helpful so the judge will understand better.
- Review the rule or procedure. Sometimes a judge may have forgotten the rule or may have misunderstood the procedure.
- If and when appropriate, explain how a mistake or particular behavior may adversely affect a voter and/or how other judges are dependent upon the correct performance.
- If the judge still has difficulty following the rules or instructions, ask another judge to assist in training and to work side-by-side. Request this judge to inform you if the Election Judge is continuing to perform incorrectly.
- If the election judge fails to achieve compliance, call Election HQ . You may be directed to request the Election Judge to leave the polling place and document this in the Incident Log.

Continued errors or inappropriate behavior

It is important that every election judge follows polling place rules and procedures. If an election judge performs incorrectly or exhibits inappropriate behavior, it must be addressed. If not corrected, the judge may not be asked to serve in the future, or may be terminated immediately.

Keep notes to use for election judge evaluations

While monitoring and mentoring your election judge team, keep notes that will allow you to provide constructive feedback on each election judge's evaluation.

Incident Log³⁸

- Instruct all judges to inform you of any unusual events or problems and record them in the Incident Log. For example, if the ballot tabulator stops operating, a disturbance has occurred in the polling place, a voter's name is missing from the Roster, or if a voter is upset about something that happened in the polling place, etc. Record this information, the time the event occurred, and the resolution in the Incident Log.
- The Incident Log is key to solving problems at the end of the day. For instance, if ballots and signatures don't match at poll closing, check the Incident Log to find clues.
- Include as much detail as possible in case further investigation becomes necessary.
- The following events and information must be recorded in the Incident Log, if they occur:
 - Discrepancies in ballot counts
 - Ballots found in voting station
 - Facts surrounding excess ballots
 - Opening a Ballot Box during voting hours
 - Irregularities or discrepancies with the Ballot Counter seal

Absentee ballots

Absentee ballot runners (A.B. Runners)

On Election Day, absentee voting staff will go to each polling place to verify that certain voter who cast an absentee ballot close to Election Day did not also go and vote in the polling place. They will coordinate with the Head Judge, make updates to the Roster of Pre-registered Voters, and provide new Absentee Election Day Registrants for Polling Place lists as necessary.

Procedure:

1. The A.B. Runner provides name badge and asks for the Head or Assistant Head Judge.
2. The Head or Assistant Head Judge assists the A.B. Runner, or delegates experienced election judges from the Roster and Registration Stations to do so.
3. At the Roster Station:
 - a. The A.B. Runner states each voter's name on the list and the Head, Assistant Head, or delegated judge locates each name in the Roster.
 - b. If the voter has not voted at the polling place (no signature) the A.B. Runner will stamp "A.B." on the appropriate signature line of the Roster.
4. Registration Station:
 - a. The A.B. Runner will state each voter's name on the list and the Head, Assistant Head, or delegated judge verifies that the voter has not registered and voted.
 - b. Upon completion, the A.B. Runner will replace the Absentee Election Day Registrants for Polling Place list with an updated one.

Voter who brings an absentee ballot to the polling place

If a voter brings in **their own** absentee ballot, they have one of two options:

- Keep their absentee ballot, and instead of casting that ballot, go through the process of casting a ballot in the polling place.
 - The voter may not use their absentee ballot in the polling place.
- Return their absentee ballot to any one of the Minneapolis in-person absentee voting locations, or to Hennepin County by 3 p.m.

If a voter brings **someone else's** absentee ballot to a polling place, the judge **must** direct them to return the ballot to any one of the Minneapolis in-person absentee voting locations, or to Hennepin County by 3 p.m.

CONTESTING A VOTER'S ELIGIBILITY

An election judge, any eligible voter in the precinct, or an appointed challenger may contest a voter's eligibility to vote, but only if they have **personal knowledge** that the person is not eligible to vote. **Suspicion is not a basis for making a challenge.**

Appointed challengers

Major political parties and nonpartisan candidates can appoint **one challenger per precinct** who may remain in the polling place on Election Day. Challengers are not poll watchers; **the only action a challenger may take is to contest a voter's eligibility**, if, and only if, they have personal knowledge of that voter's ineligibility to vote. If a challenge is made, the Head or Assistant Head Judge follows the procedure in this chapter.

If you have doubts as to whether the challenger should be present, ask to see their credentials (see below) or check with Election HQ . You have a right to eject a challenger who violates these provisions after being asked to cease any prohibited activity.

All challengers must:

- Present the Head Judge their written appointment from a political party or a nonpartisan candidate (appointments cannot be made by partisan candidates). **Appointments must be made in writing.**
- Prove their **Minnesota** residence by presenting one of the proofs of residence accepted for Election Day registration (page 85). Challengers are not required to prove residence in the precinct in which they are appointed.³⁹

If possible, provide a chair within view of the Roster and Registration stations but out of the way of voters for the challenger to observe.

Challengers may not harass voters and must respect voter privacy.

³⁹ M.S. 204C.07

Code of conduct for appointed challengers⁴⁰

- A challenger can only challenge a voter's eligibility based upon their **personal knowledge** that the voter is not eligible to vote.
- A challenger cannot speak to the voter, and should only speak to the Head or Assistant Head Judge when initiating a challenge. All challenges must be made in writing.
- Challengers cannot be disruptive, handle or inspect Voter Registration Applications, files, or lists. They cannot make lists of who did or did not vote.
- Designate an area near the Roster and Registration stations, but away from voters, and provide a chair to the challenger.
- Challengers cannot take photos within the polling place.
- Challengers cannot go within six feet of the Ballot Counter.
- Challengers cannot attempt to influence voting.
- Challengers cannot compile lists of voters to challenge on the basis of mail sent by a political party that was returned as undeliverable or if receipt by the intended recipient was not acknowledged in the case of registered mail.

Administering in-person challenges⁴¹

If a voter's eligibility is contested by a challenger, an election judge, or an eligible voter, the Head, Assistant Head Judge, or another designated judge must resolve the challenge.

1. Have the challenger complete the Oath of Challenge to Voter's Eligibility form (page 127).
 - a. On the form the challenger states the basis of their challenge in writing. A challenger may only speak to the Head or Assistant Judge and not to voters.
2. Have the challenged voter swear or affirm the following oath:
 - a. "Do you solemnly swear (or affirm) that you will fully and truly answer all questions put to you concerning your eligibility to vote at this election?"
3. Question the voter regarding the reason for the challenge.
 - a. Questions will differ depending on the challenge being made. Examples may be:
 - i. What is your full name?
 - ii. What is your residential address?
 - iii. Are you at least 18 years of age?
 - iv. Are you a citizen of the United States?
 - v. Are you under court-ordered guardianship in which the court order revokes your right to vote; or found by a court to be legally incompetent?
 - vi. Are you on probation or parole for a felony conviction?

⁴⁰ M.S. 204C.07

⁴¹ M.S. 204C.12

4. If the voter's answers indicate that they are eligible to vote in the precinct, they can sign the Roster and vote.
5. If a challenger persists with the challenge, and the voter continues to say they are eligible to vote, have the voter verbally repeat the oath/affirmation at the top of the polling place Roster; after the voter signs the Roster, you must allow them to vote.
6. Make notations on the Oath of Challenge to Voter's Eligibility Form and Roster Challenge Log as appropriate. Inform the challenger they may contact the county attorney to pursue the matter further.

Refusing or failing a challenge

If a voter refuses to answer questions, is not eligible, or refuses to sign the Roster, inform them that they cannot vote now or later in the day. Print "Refused Oath" or "Not Eligible" on the appropriate Roster signature line, and make a note in the Roster Challenge Log.

An individual conducting an exit poll may 1) only approach voters after they have voted 2) only speak with a voter to the extent necessary to ask the voter to take an anonymous, written questionnaire.⁴³

No one in the polling place may discussing candidates or issues. This includes voters waiting in line and Election Judges.⁴⁴

Prohibited conduct⁴⁵

People may not gather or linger in the polling place or within 100 feet of the building. Intoxicated persons and/or liquor are not allowed. Ask individuals to leave if they will not or cannot cease the following:

- Smoking
- Lingering

Campaigning

If they refuse, explain that eligible voters will be allowed to vote, but any refusal will be recorded and referred to appropriate authorities. Record in the Incident Log the names of those who refuse to cover or remove political material.

Voter complaints

There are two forms available in the polling place used for recording different kinds of voter complaints, the HAVA Elections Complaint Form, and the Election Day Feedback Form.

HAVA Elections Complaint Form

The HAVA Elections Complaint Form must be available to voters upon request. If you aren't sure if a particular complaint is a HAVA complaint, Contact Election HQ . Inform the voter of the need to complete the form, including their signature, and the requirement that an Election Judge or notary sign and witness it. Voters may complete it at the polling place or take it with them.

On Election Day, you are authorized to sign as a notary on the HAVA Complaint Form. Your signature does not indicate agreement with the voter's statement, but indicates that you witnessed the voter complete the form. Make a note in the Incident Log with details of the event. The voter may give you the form or deliver the form to the address provided on the form.⁴⁷

This form may be used when any person believes a violation of the Help America Vote Act (HAVA) Title III (such as voting machine standards, posting of voting information, voter registration) has occurred, is occurring or is about to occur. (<i>Minnesota Statutes 200.04</i>)	
It is not for the following complaints:	
<ul style="list-style-type: none">• Minnesota Fair Campaign Practice & Finance Acts complaints (<i>Minnesota Statutes 211A and 211B</i>) are under the purview of the State of Minnesota's Office of Administrative Hearings and are not applicable to this complaint form.• Other Minnesota election law complaints are under the purview of the county attorney and are not applicable to this complaint form. Use the Minnesota State Election Law Complaint Form instead.	

Election Day Feedback Form

Any concern a voter wishes to express that is not a HAVA complaint can be recorded on an Election Day Feedback Form. After the voter completes the form, place it into the Feedback Form Envelope. All completed forms are reviewed by the City and Hennepin County.

PROVIDING ASSISTANCE TO VOTERS

Within the polling place, voters have a right to receive assistance from election judges or a person of their choice, except the voter's employer, an agent of the voter's employer, an officer or agent of the voter's union, or a candidate for the election. This could include assistance moving through the polling place, reading materials, completing forms, or marking ballots.

Assistance by election judges

At the voter's request, **two party-balanced election judges** can help the voter mark their ballot. When assisting:

- be sensitive to the specific needs of the voter;
- avoid any action that may influence how they vote;
- do not give advice or reveal to anyone else how they voted;
- direct questions to the voter, not to others with them;
- help only as much as requested.

Assistance from others⁴⁸

An assistant of the voter's choice, except the voter's employer, an agent of the voter's employer, an officer or agent of the voter's union, or a candidate for election, may help the voter in all areas of the polling place, including in the voting booth. However, **an assistant can only physically mark ballots on behalf of a maximum of three voters each election**. They may provide other forms of assistance, apart from physically marking ballots, to an unlimited number of voters.

- Generally, once the voter has the ballot in hand, the assistant is considered to be helping that voter with the marking of their ballot. If the assistant merely provides physical aid to a voting booth or table and then steps away from the voter while they vote, this would not be considered assistance with the marking of the ballot.
- Although an individual may not assist more than 3 voters in marking their ballots, there is no limit on the number of voters that an individual may help otherwise. However, the individual assisting must be with a voter and may not linger or solicit assistance within 100 feet of the polling place.
- Any individual assisting a voter as described in this section may not request, persuade, induce, or attempt to persuade or induce the voter to vote for any particular political party or candidate.
- If an assistant has marked a ballot on behalf of a voter, the voter may show it privately to an election judge to confirm that it is correctly marked before placing the ballot in the ballot box.

Assistance for voters with second language needs

Polling locations that serve large populations of voters for whom English is a second language, particularly locations where Hmong, Somali, and Spanish are commonly spoken, are a priority for receiving additional materials and support. When possible, translated signage and Voter Registration Applications will be provided as well as election judges who can assist with interpretation. If a judge speaks a language other than English, they should write that language on their nametag.

Election judges may speak in a second language to assist and instruct the voter on the voting process. If the voter requests assistance marking the ballot, **two party-balanced election judges** must assist.

Curbside Voting

There may be instances when a voter is unable to enter the polling place. In this case, the voter can request that you bring a ballot out to their vehicle. Your Head Judge will assign two judges to assist. Follow these procedures.

1. **Two party-balanced election judges** go out to assist the voter.
2. Ask for and write down their name, and return inside to check the Roster and determine if the voter is registered.
3. Take a Certificate of Registered Voter Form to each curbside voter.
 - a. This form takes the place of signing the Roster. If not registered, also bring the voter a registration application.

<h3 style="margin: 0;">Certificate of Registered Voter</h3>
<small>For election judges to use in lieu of having a voter who is unable to enter the polling place sign the polling place roster (curbside voting.) <small>After the curbside voter signs the certificate, election judges sign and attach the certificate to the page where the voter's name appears on the roster.</small>
1. Voter Information:
I, _____
<div style="display: flex; justify-content: space-between; font-size: small;"><div>Last Name or Surname</div><div>First Name</div><div>Middle Name</div></div>

4. Have the voter complete the form(s).
 - a. Ask for proof of residence if they need to register.
5. Process forms.
 - a. Give the Certificate to the Roster Judge (if they are registered) or the Registration Judge (if they need to register) in exchange for a receipt. Have the Roster or Registration Judge print "curbside" on the appropriate Roster signature line. Attach the certificate to the page where the voter's name appears on the Roster.

6. Exchange the Voter's Receipt with the Ballot Judge for a ballot and secrecy folder and take them out to the voter.
7. Have the voter fill out the ballot.
 - a. Provide assistance as needed.
8. Ask the voter to wait until you confirm the ballot is accepted by the ballot tabulator.
9. Place the ballot into the ballot tabulator.⁴⁹
10. If the ballot is accepted, inform the voter; if there is a ballot error message, follow the procedure on page 106.

Serving voters who have a disability

Unfortunately, voters who have a disability continue to face barriers at polling places. These include architectural and physical barriers, as well as barriers from election personnel who have not been properly trained. Over half of respondents in a recent national survey reported encountering barriers, including attitudinal, inside the polling place. 20% said they were prevented from exercising a private and independent vote.

As an election judge, it is your responsibility to do everything within your ability to help each and every voter participate equally in the process. Polling place setup is the area where Election Judges most often fail to meet their obligations to voters who have a disability. Carefully review setup principles for accessibility on page 22, and thoughtfully apply them to your polling place space.

If you see a voter with a disability experiencing difficulty, ask before helping - don't touch the voter or their equipment without permission. A majority of voters with mobility impairments don't need assistance.

Voters who are blind or have low vision

If asked to help a blind or low-vision voter navigate the polling place, offer your arm for them to hold, then paint a verbal picture of the pathway; give specific information about upcoming obstacles. Tell the voter when you're leaving or when another judge will be taking over to assist them.

When a blind voter with a guide dog approaches, don't interact with the dog. The dog has a job to do, and by distracting the dog you might endanger the voter.

All Election Judges must be ready to use the tools at their disposal to aid voters with accessibility needs. Tools available in Minneapolis polling places:

- Magnification cards and bars
- Signature guides
- AutoMARK

⁴⁹ M.S. 204C.15, subd. 1

Voters who are deaf or hard of hearing

Be alert for deaf voters, voters who are hard of hearing and voters with speech disabilities. Speak calmly and directly to the voter. Avoid the common impulse to talk louder to people with hearing impairments. If the voter doesn't understand you, try rephrasing — rather than just repeating yourself. Sometimes written communications work best. Remember, the goal is to provide effective assistance to these voters, while protecting their privacy and respecting their dignity.

Tools available in Minneapolis polling places to aid voters who are deaf or hard of hearing:

- Scratch paper
- AutoMARK

Voters with cognitive impairments

Only a court can decide if someone is not competent to vote. No one can make this decision on someone's behalf, including a spouse, children, caregivers, doctors or nurses. Election Judges cannot challenge the eligibility of a voter on account of that person's perceived cognitive capability.

Persons have the right to vote when they are under guardianship, conservatorship, or if someone else has power of attorney, as long as a court order did not explicitly restrict the right to vote.

The AutoMARK

The AutoMARK is a device designed specifically to aid voters with the marking of their ballot available in every Minneapolis polling place. Voters with accessibility needs may find the AutoMARK useful, but it is available for any voter who would like to make use of the device. Voters in need of language assistance or those that may be more comfortable with oral, rather than written, English may find the AutoMARK useful as well.

OPERATING THE AUTOMARK

The AutoMARK is a ballot-marking device. A ballot-marking device must be present in every polling place so that all individuals have the same opportunity for access and participation. It provides privacy and independence to voters who cannot, or choose not, to vote using a pen, including voters who prefer oral rather than written words. This could include voters with low literacy levels, voters who speak English as a second language, or voters with cognitive or physical disabilities. The AutoMARK can display the ballot in large print or with a high-contrast background; it can read the ballot to the voter through headphones; and it allows the voter to select candidates through a keypad, touchscreen or sip-and-puff device.⁵⁰

Any voter can choose to use the AutoMARK to complete their ballot. In some polling places it is used frequently, and in others only rarely—what matters is that it is ready to use when a voter requests it. If you are working in your home precinct, try using it to mark your ballot to familiarize yourself with the system.

Features

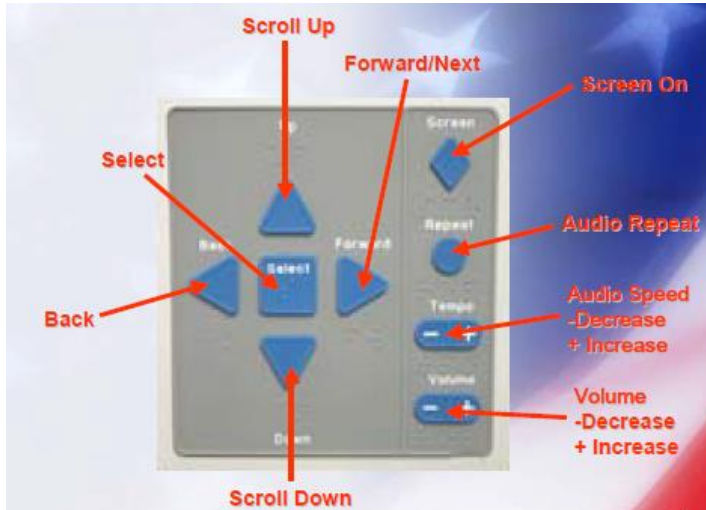

When the voter inserts a ballot, an electronic version of it appears on the screen. It allows a voter to view and mark the ballot in various ways:

- It allows selections by touching the screen, pressing keys on the keypad, or the use of a sip-and-puff device.
- It can read the ballot to a voter through headphones.
- A voter can turn the screen off for increased privacy.
- The audio description of the ballot can be used in place of or in conjunction with the visual version on the screen.
- The device checks for ballot-marking errors (see page 33), such as cross-party voting during a primary election or other voter errors. A summary screen allows the voter to review their choices.
- The device prints a voter's choices on the ballot and returns the ballot to the voter so that it may be placed into the ballot tabulator.

NOTE: Voters may sometimes mistake the AutoMARK for a ballot tabulator. Being aware of this throughout the day can help ensure voters are correctly directed to the ballot tabulator once they finish voting with the AutoMARK or at a voting booth.

After the polls close, the Election Night Ballot Audit portion of the Ballot Tracking Form must be completed and signed by two election judges (no party balance required).

You will always have at least **two spoiled ballots** since two will have to be spoiled as part of testing the AutoMARK in the morning.

Return envelopes

The following are the different return envelopes:

- Results Envelope A, B, and D (there is no “C”)
- Election Day Registration Envelope
- Feedback Form Envelope
- Challenger Form Envelope
- Used Voter Receipts Envelope
- Spoiled Ballot Envelope
- Duplicate Ballot Envelope
- Feedback Form Envelope

For each envelope:

1. Enclose all of the items listed on the front of the envelope.
2. Complete all of the information on the front of the envelope.
 - a. Do this even if there is nothing in the envelope. If this is the case, write “0” in the space for item quantity.
3. Seal the envelope, and **four election judges** sign over the seal.
 - a. Do this even if there is nothing in the envelope.

Duplicating ballots⁵¹

Occasionally, the ballot tabulator will reject a ballot because it is damaged or the voter used the wrong type of pen or vote mark. The ballot is still valid, so you will need to make a duplicate ballot that the tabulator can scan and count. **Two party-balanced judges** are required for this process.

1. Label ballots as “original 1” and “duplicate 1.” Number subsequent ballots consecutively.
2. Note reason for duplication on the duplicate ballot. For example, write “torn ballot.”
3. One judge reads the votes to the other judge who marks the duplicate ballot accordingly.
4. If voter intent is in question, follow the rules on page 152 for determining voter intent.
5. Both judges initial both the original and duplicate ballots. When finished, both judges compare the ballots to be sure the duplicate is correct and matches the original.
6. Insert the duplicate into the ballot tabulator.
7. Place the original in the Duplicate Ballot Envelope. Record the number of original ballots in the envelope and seal the envelope.

Determining voter intent⁵²

Minnesota law requires that every effort be made to accurately count all votes on a ballot. Never reject a ballot for a technicality if it is possible to decide what the voter intended, even if the voter made a mistake or damaged the ballot. Count only those offices for which you can decide voter intent, using these rules:

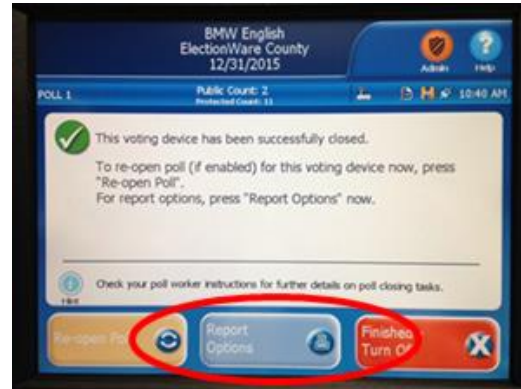

- A ballot may be marked with a pencil or a pen or both.
- Voter marked too many candidates for the same office, including write-in candidates.
 - Do not count any of the votes for that office but count the rest of the ballot.
- Voter voted both 'Yes' and 'No' on a question.
 - Do not count any of the votes for that question but count the rest of the ballot.
- Two candidates were marked, and the ballot shows the voter tried to erase one of the marks.
 - Count the vote for the remaining marked candidate.
- Voter wrote a write-in candidate in the proper place on a general election ballot but did not fill in the mark.
 - Count the vote. Remember, write-in votes are not allowed in primary elections
- A write-in vote was misspelled or abbreviated.
 - Count the vote if the intended candidate's identity is clear. An oval by the write-in line need not be marked to be counted.
- Voter voted for candidates from more than one party in a primary election.
 - Voter intent cannot be determined, so the entire partisan portion of the ballot is defective. Do not count any of the partisan votes on the ballot.
- Two or more persons are to be elected to an office but the voter did not choose the maximum number allowed.
 - Count only those that are marked.
- Voter wrote an identification number or signed their name anywhere on the ballot; or wrote someone else's name on the ballot completely outside of a write-in space.
 - The voter has identified the ballot, and the entire ballot is defective. Do not count any of the votes on the ballot.
- Voter used a mark other than filling the oval but the intention is clear.
 - Count the votes for each candidate. If the voter used two or more different marks, for example an 'x' and a check-mark, count the votes unless it is evident the voter intended to make the ballot identifiable.
- Ballot has extraneous marks outside the ovals.
 - Count the ballot.
- Ballot is slightly soiled.
 - Count the ballot.
- Voter's mark is outside of the oval, but on or so near a name or space that it is clear the voter intended to mark the name.
 - Count the vote.

1. From the screen displayed below, press “Report Options.”

2. Select the following:
 - a. Voting Results
 - b. Detailed
 - c. Precinct
 - d. Include Affidavit

3. Press the “Print Report” button.

New in 2016, there are two different election night drop-off locations; however, each precinct is assigned to one location. This has been done to reduce wait times while dropping off supplies. **Judges will receive information about their drop-off site before Election Day.**

APPENDIX I: HEALTH CARE FACILITY JUDGES

Judges certified as Health Care Facility (HCF) Absentee Ballot Judges may deliver a ballot to an eligible voter who is a temporary or permanent resident or patient in a HCF or hospital located in the municipality in which the voter maintains residence. An eligible voter may register to vote at the time of application by filling out a Voter Registration Application and presenting an authorized proof of residence.

An application for an absentee ballot must be filed with the County Auditor or City Clerk. Voters who expect to be permanently unable to go to the polling place on Election Day may apply to the county auditor or clerk to receive an absentee ballot application before every election. Ballot delivery takes place during the 20 days preceding an election with the following exceptions on Election Day. On Election Day, the judges deliver absentee ballots to eligible voters who:

- Became a resident or patient on the day before the election, and
- asked the County Auditor or City Clerk for an absentee ballot by 5 p.m. on the preceding day, and
- submits an application to the HCF absentee judges who deliver the absentee ballots.

Two judges from different major political parties must travel together in the same vehicle to deliver and return ballots. Two judges must be present when an applicant completes the certificate of eligibility and marks the absentee ballots. The judges may assist the applicant at the applicant's request. The return envelopes containing the marked absentee ballots should be deposited in a sealed container and returned to the City Clerk on the same day.⁵³

APPENDIX III: POLLING PLACE LAYOUTS

For every election a polling place layout will be provided for each precinct illustrating the recommended polling place setup. The diagram provided is measured and scaled to each location and includes details such as the location of power outlets.

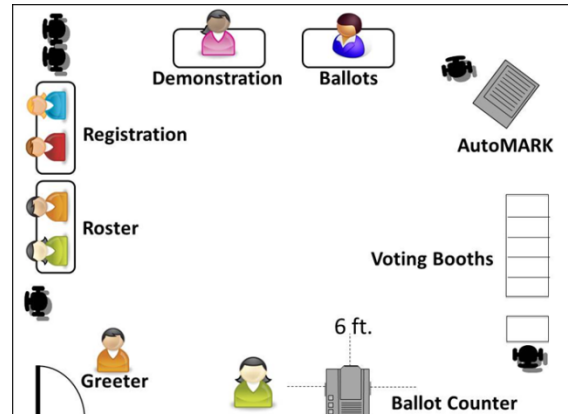

The layout is designed to maximize voter flow within the voting area, and ease management of voter lines. As is feasible, layouts will include how to arrange the voter lines inside rather than outside of the voting area and how to make use of available space for additional tables, chairs, booths, etc. In some cases, recommendations might include an alternate exit than was used previously so that congestion at a single entrance/exit can be avoided.

These layouts are a guide. You are encouraged to communicate any concerns or suggested adjustments with Election HQ. You may adjust the layout accordingly to ensure that voters are getting in and out of the spaces effectively. Please indicate any adjustments or corrections directly on the layout provided and return it at the end of the night with other materials. If tables or voting booths need to be laid out differently, hand sketch suggestions onto the layout. Written comments may also be included on the layout itself. Please also note if there is a missing outlet on the layout (outlets appear as small “diamond” shapes along the walls).
